AMT students learn how to repair, rebuild, and maintain aircraft. The program offers training to be qualified for FAA Mechanic certificates for Airframe and Powerplant, and two-year associate degrees.

www.bigbend.edu
Degrees and certificates for:

- Aviation Maintenance General
- Airframe Mechanic
- Powerplant Mechanic
- Composite

Introducing Big Bend’s new Certificate of Achievement in Composite Repair.

Big Bend offers Federal Aviation Administration approved General, Airframe, and Powerplant courses and certifications.

Students are eligible to take FAA written, oral, and practical exams after successful completion of the General curriculum and the Airframe or Powerplant curriculum.
