**ITEM #3:** CONSENT AGENDA (for action)

a. Board Meeting Minutes

# **BACKGROUND:**

The minutes of the study session and regular board meeting on December 12, 2013, are included for approval.

Prepared by the President's Office.

# **RECOMMENDATIONS:**

President Leas recommends the Board of Trustees approves the minutes.

#### THE OFFICIAL MINUTES

The Big Bend Community College Board of Trustees held a study session Thursday, December 12, 2013, at 11:00 a.m. in the ATEC Hardin Community Room in Building 1800 on the Big Bend Community College campus.

#### 1. Call to Order

Present: Mike Blakely

Anna Franz Jon Lane

Stephen McFadden Mike Villarreal

Trustee Mike Blakely explained that safety and security are the topics of this study session. No action will be taken.

Director of Safety and Security Kyle Foreman presented to the Board. He shared that there are three primary functions of the safety department: emergency management, environmental safety, and security. He also explained that the Port and Job Corps are BBCC's neighbors and when there is a campus incident, they are notified; and they notify BBCC when they have an incident.

The most important function of the three is security of the campus. There are eight officers and Director Foreman is on duty throughout the week. The officers have law enforcement and security experience. The crime rate on campus is very low even though the neighborhood across the street accounts for 50% of the Grant County Sheriff's calls.

Director Foreman works closely with the Director of the Residence Halls, Hugh Scholte. Partnering with the campus with "community-oriented policing" is essential. It builds mutual trust between security staff, students, and employees.

The Clery Act became law in the 1990s due to an incident that occurred on a campus that had not shared previous criminal incidents publicly. The act mandates higher education institutions disclose security policies and crimes on campus. Fines imposed by the Department of Education stemming from violations of the Clery Act are the result of colleges protecting their reputation above protecting their students. BBCC's annual campus security and fire report is posted on the website and widely distributed and available on campus. Notifications and timely warnings are also prescribed by the Clery Act. BBCC uses e-mail, text messages, twitter and Facebook for notifications.

Director Foreman developed the campus-wide multi-hazard plan, which documents emergency procedures including lockdown and evacuation. BBCC recently had a lockdown due to incidents that occurred at the neighboring Grant County Airport.

Director Foreman explained that on-campus training is very important. BBCC recently partnered with several area law enforcement agencies and allowed active shooter simulation training on campus. President Leas encouraged law enforcement to continue tactical training on campus whenever possible.

There are eight active cameras on campus, and they can be controlled remotely. A consultant visited campus and shared information regarding additional camera locations. Director Foreman has the ability to monitor the live video from his office and cell phone. The IPad located in the security vehicle also accesses the video footage. This gives security officers the ability to monitor several areas on campus at once.

Mike Blakely commented about the lack of graffiti on campus. Director Foreman reported the improved lighting around campus has created a safer environment and discouraged acts of vandalism.

Environmental safety is also addressed by Director Foreman. He said the safety committee meets monthly. The group discusses incident reports, and they problem solve issues.

Another safety and security action reported by Director Foreman was taken at the childcare. A number lock pad was installed on the daycare door, which ensures only employees and parents who know the code may enter. Also, AEDs are being purchased as a result of partnership with Moses Lake Rotary. Director Foreman thanked students and employees for their partnerships to make BBCC safer and more secure.

Trustee Stephen McFadden encouraged President Leas to allow and publicize additional law enforcement training opportunities. Trustee Jon Lane asked about the availability of campus building maps to law enforcement. Printed and online maps are available for law enforcement agencies. Board Chair Mike Blakely commended Director Foreman for his involvement students, clubs, and employees.

Director Foreman stated he is arranging fire drills to begin in January. Personal accreditation training for security officers will be a priority for 2014.

The study session adjourned 11:30 am.

Part-time computer science instructor, Grant County PUD employee, and BBCC graduate Mike Conway described his experience instructing. His supervisor at the PUD is on the computer science advisory committee, and he encouraged Instructor Conway to think about teaching at BBCC. He teaches website fundamentals by requiring some textbook reading and then students apply the knowledge working as a project team. This model duplicates real work experience.

Computer science student Tony Louthan reported Instructor Conway's teaching style is efficient. He compared the practical application of computer science skills to building a house from the foundation. The project team has been designing an interactive website.

Full-time computer science instructor Peter Betzing reported that his discussion with Computer Science Advisory Committee members resulted in equipment donations from REC (\$80,000) and Yahoo (\$20,000). His students benefit from working with hardware to create rack configuration designs and a computer server. Their classroom computers access their student computer server and the BBCC computer network. The BBCC network is segmented and fully protected.

#### **BACKGROUND:**

#### **Estimated Employment**

BBCC Completers' Estimated Employment was 80% compared to the Washington State System of 78%. This is during a time when BBCC's service district had a higher unemployment rate than the state. Only 25% of the system colleges had higher estimated employment rates than BBCC.

Unemployment 2012					
Washington State	8.2%				
Adams County	8.8%				
Grant County	9.4%				

http://data.bls.gov/map/MapToolServlet data retrieved on January 6, 2014.

#### **AVID**

Planning and implementation for AVID are continuing. Saturday, January 4, Basic Skills faculty met for their quarterly in-service meeting. One topic was the use of AVID strategies in the classroom. Instructors took part in an exercise involving Levels of Inquiry. In addition, the group reviewed the WICOR framework and looked at available AVID resources.

The second round of AVID planning and professional development days will take place January 23 and 24. Seminar topics will include Collaboration and High Engagement strategies. These sessions are open to anyone from the college.

At this time, 15 faculty members have signed up to implement an AVID strategy in their classroom, assess the results, and report on findings. This project carries a \$500 stipend, paid for by funds from the Student Achievement Initiative.

d. Accreditation Update

#### **BACKGROUND:**

BBCC continues to work on the recommendation to align the mission and core themes that was given as a result of the 2012 full-scale evaluation. With the new mission and core themes in place, staff are working on indicators for the core theme objectives and a reporting schedule.

1. The Evaluators recommend that the college ensure the alignment between the mission statement and the core themes – that the core themes "individually manifest" and "collectively encompass" the college mission statement (1.B.1), that the core theme objectives and verifiable indicators be sufficient to evaluate the accomplishment of core themes (1.B.2), and that the evaluation of programs and services be holistically informed by indicator data for each core theme objective (3.B.3, 4.A.4).

In addition, at the next in-service day on February 7, faculty will begin work to address the second recommendation from our accreditation visit by integrating general education assessment into their annual assessment plans.

e. Assessment Update

#### BACKGROUND:

Each Program/Discipline received its program data sheet which includes five years' worth of program enrollment, FTE (full-time equivalent enrollment), FTEF (full-time equivalent faculty load), student faculty ratio, program expenses and cost per FTE. Staff can use this to note trends in enrollment, program efficiency, and costs per FTE.

f. Capital Project Update

#### **BACKGROUND:**

<u>Facilities Master Planning:</u> The Facilities Master Planning Committee met on January 10 to discuss Master Plan goals and objectives, including both short-term and long-term facility needs. The architects have been meeting with personnel from the Grant County Economic Development Council and the Moses Lake School District. They have also been reviewing information from the Facility Condition Report with mechanical, electrical, and structural engineers. Surveys have been administered to students, faculty, staff, and business and industry. We are in the process of analyzing the survey responses.

# **Old Developments/Background:**

<u>12/12/1</u> The Facilities Master Planning Committee has been formed and will meet on December 6 to start the process of updating the Facilities Master Plan. Three different facility assessment surveys will be distributed this week to business and industry, students, and faculty and staff. Input from these surveys will help us better understand the current and future needs of all programs. One of the committee's goals is to align the Facilities Master Plan with the Academic Master Plan.

i. Classified Staff Report

#### **BACKGROUND:**

The newly structured Staff Training and Recognition (STAR) Committee consists of classified staff members representing areas from across campus. Each member will serve on the committee for a minimum of 12 months to a maximum of two years. Classified staff voted for the following representatives on the committee in 2014: Starr Bernhardt, Classified Staff Representative; Darci Alamos, Alternate Classified Staff Representative; Barbara Collins, Secretary/Treasurer; and Carla Louise Christian, Marketing/Publicity.

The main purpose of the STAR Committee is to plan and implement programs to support the personal and professional development of classified staff and develop processes for the recognition of staff contributions. In December, the committee developed a survey to collect information from classified staff on the types of training and recognition they value. A similar survey was created for supervisors of classified staff to develop the most useful training possible. The surveys were administered on January 2, and the results will be analyzed and discussed at the next STAR Committee meeting (January 17). Results will be used to guide efforts to design a suitable staff training and recognition schedule for 2014.

Many classified staff members participated in the Active Shooter Training held on the BBCC campus on December 10. Participants directly experienced how law enforcement responds in an active shooter situation and learned what to do if such an incident were to occur on our campus. Participants reported that the training was very interesting and informative.

Prepared by Classified Staff Representative Starr Bernhardt.

This policy serves as an umbrella that governs all other BBCC policies pertaining to IT usage on campus and is intended to comply with the Washington State Department of Information Services (DIS) IT Security Audit Process Office of the Chief Information Officer (OCIO) Standard No. 141.10: Securing Information Technology Assets.

(For full text of OCIO policy, see <a href="http://ofm.wa.gov/ocio/policies/documents/141.10.pdf">http://ofm.wa.gov/ocio/policies/documents/141.10.pdf</a>)

This policy applies to all campus facilities, equipment and services that are managed by the Big Bend Technology department, including off-site data storage, computing and telecommunications equipment. This policy also applies to application-related services purchased from other state agencies or commercial concerns, and internet-related applications and connectivity.

#### **Intended Exemptions**

## **BACKGROUND:**

## **BP Compensation Plan**

Prepared by the President's office.

## **RECOMMENDATION:**

## **Philosophy**

In order to fulfill its mission, Big Bend Community College shall maintain a compensation plan directed toward attracting, retaining, and rewarding a qualified and diverse workforce. Within the boundaries of financial feasibility, employee compensation shall be externally competitive and internally equitable, and shall be based upon performance as recognized within the work unit.

## **Compensation Plan Goals**

- 1. To attract and retain highly qualified employees with the required education, experience, and skills necessary to achieve the College's mission.
- To compensate employees at a level consistent with comparable market benchmarks for institutions of higher education or other appropriate job markets for similar skills, responsibilities, educational qualifications, and working conditions:
  - a. For higher education related positions, the market is based on salaries of peer institutions.
  - b. For all other positions, the market is based on local, regional, and/or national markets, depending on the position.
  - c. Salaries may exceed the average of the particular labor market in order to recognize exceptional recruiting and retention needs, or for purposes of attracting and retaining employees in areas where the college is or aspires to be a state or national leader.
- 3. To maintain internal equity for all employees performing similar functions based on the requisite knowledge, skills, complexity, autonomy, experience, contacts, scope, and decision-making or supervisory responsibility required to perform those functions. Employees accepting positions paid from grant monies shall not receive higher salaries simply because their appointment to that position has a specified end date.
- 4. To set salaries for new or vacant positions at market levels that recognize skills and experience required for the position while considering the salary level of current employees within the same or similar positions.
