**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

**Big Bend Community College
July 1, 2014 through June 30, 2015**

Board of Trustees
Big Bend Community College
Moses Lake, Washington

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the Big Bend Community College, Grant County, Washington, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the College's basic financial statements, and have issued our report thereon dated January 19, 2017. As discussed in Note 1 to the financial statements, during the year ended June 30, 2015, the College implemented Governmental Accounting Standards Board Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27* and Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date - an amendment of GASB Statement No. 68*.

The financial statements of the Big Bend Community College, an agency of the state of Washington, are intended to present the financial position, and the changes in financial position, and where applicable, cash flows of only the respective portion of the activities of the state of Washington that is attributable to the transactions of the College. They do not purport to, and do not, present fairly the financial position of the state of Washington as of June 30, 2015, the changes in its financial position, or where applicable, its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

INTERNAL CONTROL OVER FINANCIAL REPORTING

In planning and performing our audit of the financial statements, we considered the College's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial

statements, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we do not express an opinion on the effectiveness of the College's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the College's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

COMPLIANCE AND OTHER MATTERS

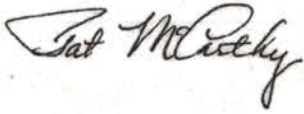

As part of obtaining reasonable assurance about whether the College's financial statements are free from material misstatement, we performed tests of the College's compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

PURPOSE OF THIS REPORT

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the College's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. However, this report is a matter of public record and its distribution is not limited.

It also serves to disseminate information to the public as a reporting tool to help citizens assess government operations.

A handwritten signature in black ink that reads "Pat McCarthy". The signature is written in a cursive, flowing style.

INDEPENDENT AUDITOR'S REPORT ON FINANCIAL STATEMENTS

Big Bend Community College July 1, 2014 through June 30, 2015

Board of Trustees
Big Bend Community College
Moses Lake, Washington

REPORT ON THE FINANCIAL STATEMENTS

We have audited the financial statements of the Big Bend Community College, Grant County, Washington, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the College's basic financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the College's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the College's internal

control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Big Bend Community College, as of June 30, 2015, and the respective changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Matters of Emphasis

As discussed in Note 1 to the financial statements, in 2015, the College adopted new accounting guidance, Governmental Accounting Standards Board Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27* and Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date - an amendment of GASB Statement No. 68*. Our opinion is not modified with respect to this matter.

As discussed in Note 1, the financial statements of the Big Bend Community College, an agency of the state of Washington, are intended to present the financial position, and the changes in financial position, and where applicable, cash flows of only the respective portion of the activities of the state of Washington that is attributable to the transactions of the College. They do not purport to, and do not, present fairly the financial position of the state of Washington as of June 30, 2015, the changes in its financial position, or where applicable, its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matters

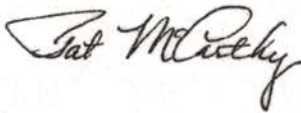

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of proportionate share of the net pension liability and schedule of contributions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial

reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

OTHER REPORTING REQUIRED BY GOVERNMENT AUDITING STANDARDS

In accordance with *Government Auditing Standards*, we have also issued our report dated January 19, 2017 on our consideration of the College's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control over financial reporting and compliance.

ABOUT THE STATE AUDITOR'S OFFICE

The State Auditor's Office is established in the state's Constitution and is part of the executive branch of state government. The State Auditor is elected by the citizens of Washington and serves four-year terms.

We work with our audit clients and citizens to achieve our vision of government that works for citizens, by helping governments work better, cost less, deliver higher value, and earn greater public trust.

In fulfilling our mission to hold state and local governments accountable for the use of public resources, we also hold ourselves accountable by continually improving our audit quality and operational efficiency and developing highly engaged and committed employees.

As an elected agency, the State Auditor's Office has the independence necessary to objectively perform audits and investigations. Our audits are designed to comply with professional standards as well as to satisfy the requirements of federal, state, and local laws.

Our audits look at financial information and compliance with state, federal and local laws on the part of all local governments, including schools, and all state agencies, including institutions of higher education. In addition, we conduct performance audits of state agencies and local governments as well as [fraud](#), state [whistleblower](#) and [citizen hotline](#) investigations.

The results of our work are widely distributed through a variety of reports, which are available on our [website](#) and through our free, electronic [subscription](#) service.

We take our role as partners in accountability seriously, and provide training and technical assistance to governments, and have an extensive quality assurance program.

Management's Discussion and Analysis

Big Bend Community College

The following discussion and analysis provides an overview of the financial position and activities of Big Bend Community College (the College) for the fiscal year ended June 30, 2015 (FY 2015). This overview provides readers with an objective and easily readable analysis of the College's financial performance for the year, based on currently known facts and conditions. This discussion has been prepared by management and should be read in conjunction with the College's financial statements and accompanying note disclosures.

Reporting Entity

Big Bend Community College is one of thirty public community and technical college districts in the state of Washington, providing comprehensive, open-door academic programs, workforce education, basic skills and community service educational programs to approximately 3,632 students. The College confers associates degrees, certificates and high school diplomas. The College was established in 1962 and its primary purpose is to deliver lifelong learning through commitment to student success, excellence in teaching and learning, and community engagement.

The College's main campus is located in Moses Lake, Washington, a community of about 22,000 residents. The College is governed by a five member Board of Trustees appointed by the governor of the state with the consent of the state Senate. By statute, the Board of Trustees has full control of the College, except as otherwise provided by law.

Using the Financial Statements

The College's financial statements include the Statement of Net Position; the Statement of Revenues, Expenses and Changes in Net Position, and the Statement of Cash Flows. The Statement of Net Position provides information about the College as of June 30, 2015. The Statement of Revenue, Expenses and Changes in Net Position and the Statement of Cash flows provide information about operations and activities over the entire fiscal year. Together, these statements, along with the accompanying notes, provide a comprehensive way to assess the college's financial health.

The Statement of Net Position and Statement of Revenues, Expenses and Changes in Net position are reported under the accrual basis of accounting where all of the current year's revenues and expenses are taken into account regardless of when cash is received or payments are made. Full accrual statements are intended to provide a view of the College's financial position similar to that presented by most private-sector companies. These financial statements are prepared in accordance with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB), which establishes standards for external financial reporting for public colleges and universities. The full scope of the College's activities is considered to be a single business-type activity and accordingly, is reported within a single column in the basic financial statements.

During 2015, the College adopted GASB Statement No. 68, as amended by GASB Statement No. 71. These statements require the College to record its proportionate share of net pension liabilities, deferred outflows and inflows by restating its 2014 net position, pension liabilities and deferral of resources as a change in accounting principle. For the purposes of this analysis, the restatement of the 2014 net position was made to conform to 2015 presentation. A prior period adjustment of \$136,589 and the change in accounting principle of \$3,707,577 resulted in a reduction to unrestricted net position in the amount of \$3,844,166. This decrease resulted in the restatement of net position to a balance of \$35,894,924 for the year ending June 30, 2014.

Statement of Net Position

The Statement of Net Position provides information about the College's financial position, and presents the College's assets, liabilities, and net assets at year-end and includes all assets and liabilities of the College. A condensed comparison of the Statement of Net Position is as follows:

Condensed Statement of Net Position As of June 30th	FY 2015	FY 2014
Assets		
Current Assets	7,838,796	11,552,598
Capital Assets, net	22,365,800	22,169,294
Other Assets, non-current	17,672,064	11,664,317
Total Assets	\$ 47,876,660	\$ 45,386,209
Deferred Outflows (related to pension)	\$ 322,984	\$ 322,616
Liabilities		
Current Liabilities	2,223,954	1,682,525
Other Liabilities, non-current	6,332,253	8,131,376
Total Liabilities	\$ 8,556,207	\$ 9,813,901
Deferred Inflows (related to pension)	\$ 1,057,045	\$ -
Net Position, as restated	\$ 38,586,392	\$ 35,894,924

Current assets consist primarily of cash, investments, various accounts receivables and inventories. The decrease of current assets in FY 2015 can primarily be attributed to the shift of cash to long-term investments.

Net capital assets increased by \$196,506 from FY 2014 to FY 2015. The increase is primarily the result of the ongoing acquisitions of capitalizable equipment along with remodeling and upgrading of buildings around campus.

Non-current assets consist primarily of the long-term portion of certain investments and student loans receivable. The college makes Student Loans as part of the Perkins program, but the major increase was due to moving cash to long-term investments.

Deferred outflows of resources totaling \$322,984 are related to the net pension liability that was recorded on the College's financials this year.

Current liabilities include amounts payable to suppliers for goods and services, accrued payroll and related liabilities, the current portion of Certificate of Participation (COP) debt, deposits held for others and unearned revenue. Current liabilities can fluctuate from year to year depending on the timeliness of vendor invoices and resulting vendor payments, especially in the area of capital assets and improvements, which is the reason for the increase FY 2015.

Non-current liabilities consist of the value of vacation and sick leave earned but not yet used by employees, the long-term portion of Certificates of Participation debt, and the College's share of the net pension liability. The increase in the College's non-current liabilities is primarily due to the implementation of GASB statement No. 68, reflecting the College's proportionate share of the net pension liability.

Deferred inflows of resources related to the College's net pension liability totaled \$1,057,045. Deferred inflows of resources include the calculated difference between actual and projected investment earnings on the state's pension plans.

Net position represents the value of the College's assets and deferred outflows after liabilities and deferred inflows are deducted. The College is required by accounting standards to report its net position in four categories:

Net Investment in Capital Assets – The College's total investment in property, plant, equipment, and infrastructure net of accumulated depreciation and outstanding debt obligations related to those capital assets. Changes in these balances are discussed above.

Restricted:

Nonexpendable – consists of funds in which a donor or external party has imposed the restriction that the corpus or principal is not available for expenditures but for investment purposes only.

Expendable – resources the College is legally or contractually obligated to spend in accordance with restrictions placed by donor and/or external parties who have placed time or purpose restrictions on the use of the asset

Unrestricted – Includes all other assets not subject to externally imposed restrictions, but which may be designated or obligated for specific purposes by the Board of Trustees or management.

As stated earlier in this section, the College's net position was adjusted by \$3,707,577 to reflect the implementation of GASB Statement No. 68 to report the net pension liability and the offsetting adjustment to net position.

Net Position As of June 30th	FY 2015	FY 2014
Net investment in capital assets	19,525,800	19,074,294
Restricted		
Expendable (Student Loans)	17,670	470,902
Unrestricted	19,042,923	20,193,894
Cumulative effect of change in accounting principle		\$ (3,707,577)
Prior period adjustment	\$ -	\$ (136,589)
Total Net Position	\$ 38,586,392	\$ 35,894,924

Statement of Revenues, Expenses and Changes in Net Position

The Statement of Revenues, Expenses and Changes in Net Position accounts for the College's changes in total net position during FY 2015. The objective of the statement is to present the revenues received, both operating and non-operating, and the expenses paid by the College, along with any other revenue, expenses, gains and losses of the College.

Generally, operating revenues are earned by the College in exchange for providing goods and services. Tuition, grants and contracts are included in this category. In contrast, non-operating revenues include monies the college receives from another government without directly giving equal value to that government in return. Accounting standards require that the College categorize state operating appropriations and Pell Grants as non-operating revenues.

Operating expenses are expenses incurred in the normal operation of the College, including depreciation on property and equipment assets. When operating revenues, excluding state appropriations and Pell Grants, are measured against operating expenses, the College shows an operating loss. The operating loss is reflective of the external funding necessary to keep tuition lower than the cost of the services provided.

A condensed comparison of the College's revenues, expense and changes in net position for the years ended June 30, 2015 and 2014 is presented below.

As of June 30th	FY 2015	FY 2014
Operating Revenues		
Student Tuition and Fees	5,330,124	5,806,330
Auxiliary Enterprise Sales	1,480,775	1,245,122
Grants and Contracts	9,153,843	9,416,341
Other Operating Revenue	231,850	472,762
Operating Expenses		
Salaries and Wages	12,288,222	11,833,717
Benefits	3,153,005	3,743,759
Other Expenses	4,089,163	2,645,486
Scholarships and Fellowships	4,021,040	5,442,427
Supplies and Material	1,534,298	1,733,440
Depreciation	1,070,873	1,056,135
Purchased Services	1,791,782	1,371,582
Utilities	550,963	661,443
Net Operating Loss	\$ (12,302,753)	\$ (11,547,433)
Non-Operating Revenues		
State Appropriations	9,281,284	9,660,536
Federal Pell Grant	4,279,907	4,684,489
Investment Income	254,714	84,197
Non-Operating Expenses		
Interest on Indebtedness	132,750	170,195
Building Fee Remittance	586,635	577,704
Innovation Fund Remittance	140,571	141,662
Non-Operating Revenues and Expenses	12,955,949	13,539,661
Income Before Capital Appropriations	\$ 653,196	\$ 1,992,227
Capital Appropriations	2,038,272	881,972
Increase in Net Position	\$ 2,691,468	\$ 2,874,199
Net Position, Beginning of the Year	\$ 35,894,924	\$ 36,864,891
Cumulative effect of change in accounting principle	0	(3,707,577)
Prior period adjustment	0	(136,589)
Net Position, End of the Year	\$ 38,586,392	\$ 35,894,924

Revenues

Continuing a trend that began midway through fiscal year 2009, the College's state operating appropriations decreased multiple times through FY 2013. The state of Washington appropriates funds to the community college system as a whole. The State Board for Community and Technical Colleges (SBCTC) then allocates monies to each college. System-level appropriations hit their height in FY 2009 and as of FY 2013 have been reduced by almost 24%. In FY14, the Legislature reinstated a fraction of the previous cuts.

Over this same period, the Legislature and SBCTC instituted increases in tuition rates to partially offset the reduction in state appropriations. The legislature did not allow tuition increases for two-year colleges in FY14 and FY15. Flat tuition rates combined with steady enrollments and

increasing waivers have resulted in a slight decrease in overall tuition revenues. Pell grant revenues generally follow enrollment trends. As the College's enrollment softened during FY 2015, so did the College's Pell Grant revenue.

In FY 2015, grant and contract revenues decreased by \$262,498 when compared with FY 2014. The overall decrease is primarily due to the end of a federal grant that brought in grant revenue of approximately one million. The decrease is less than the loss of the grant revenue due to an increase in contract revenue for the Running Start program.

The College receives capital spending authority on a biennial basis and may carry unexpended amounts forward into one or two future biennia, depending on the original purpose of the funding. In accordance with accounting standards, the amount shown as capital appropriation revenue on the financial statement is the amount expended in the current year. Expenditures from capital project funds that do not meet accounting standards for capitalization are reported as operating expenses. Those expenditures that meet the capitalization standard are not shown as expense in the current period and are instead recognized as depreciation expense over the expected useful lifetime of the asset.

Expenses

Faced with severe budget cuts over the past six years, the College has continuously sought opportunities to identify savings and efficiencies. Over time, the College decreased spending and services and was subject to various state spending freezes and employee salary reductions.

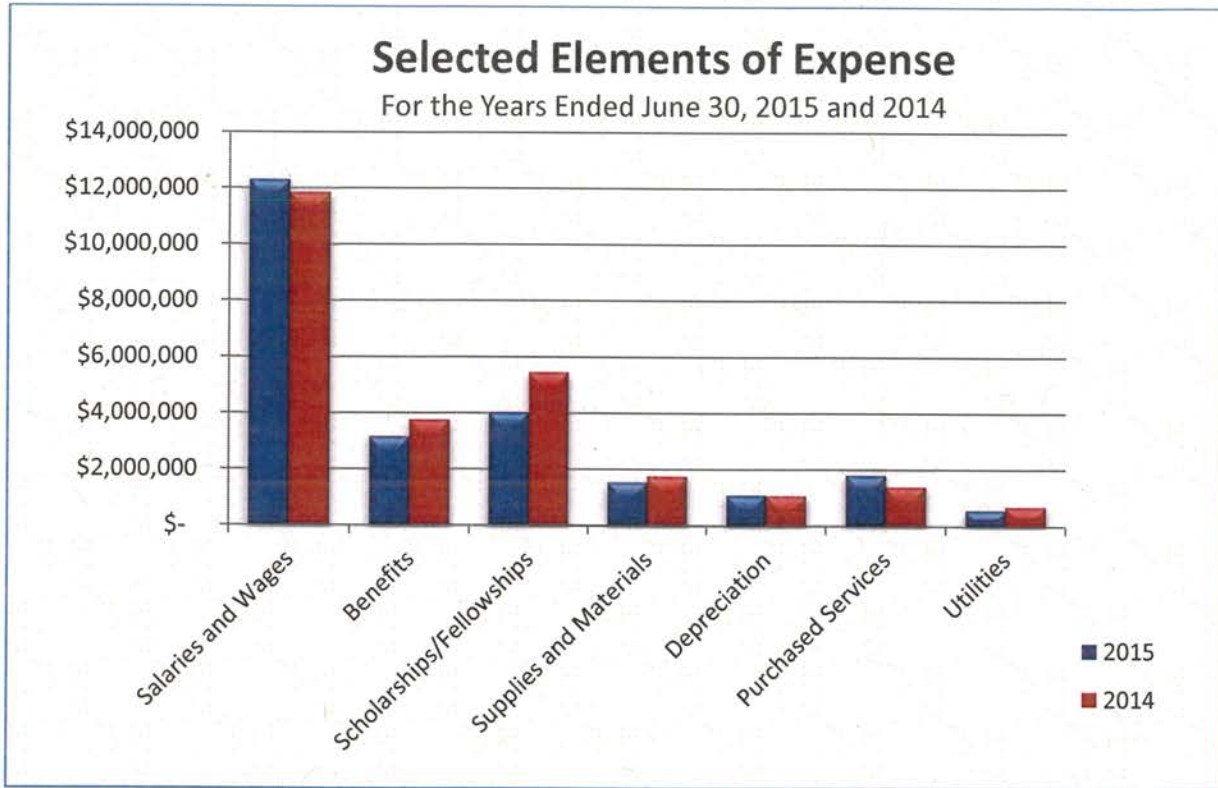

More recently, in FY 2015, salary and benefit costs slightly increased as a result of adding faculty positions, and negotiated increases for classified staff and faculty.

Scholarships and fellowships saw a significant decrease in FY 2015, primarily as a result of a reduction of Pell eligible students and less students borrowing student loans.

All other costs are reported as other expenses. Examples include software maintenance contracts, employee training, and non-capitalized equipment purchases.

Comparison of Selected Operating Expenses by Function

The chart below shows the amount, in dollars, for selected elements of operating expenses for FY 2015 and FY 2014.

Capital Assets and Long-Term Debt Activities

The community and technical college system submits a single prioritized request to the Office of Financial Management and the Legislature for appropriated capital funds, which includes major projects, minor projects, repairs, emergency funds, alternative financing and major leases. The primary funding source for college capital projects is state general obligation bonds. In recent years, declining state revenues significantly reduced the state’s debt capacity and are expected to continue to impact the number of new projects that can be financed.

At June 30, 2015, the College had invested \$22,365,800 in capital assets, net of accumulated depreciation. This represents an increase of \$196,506 from last year, as shown in the table below.

Asset Type	June 30, 2015	June 30, 2014	Change
Land	51,700	51,700	-
Construction in Progress	534,321	-	534,321
Buildings, net	20,572,501	21,073,317	(500,817)
Other Improvements and Infrastructure, net	203,558	41,096	162,462
Equipment, net	985,323	992,836	(7,513)
Library Resources, net	18,397	10,345	8,052
Total Capital Assets, Net	\$ 22,365,800	\$ 22,169,294	\$ 196,506

The increase in net capital assets can be attributed to the completion of the softball announcing booth and some minor works projects. Additional information on capital assets can be found in Note 6 of the Notes to the Financial Statements.

At June 30, 2015, the College had \$2,840,000 in outstanding debt. The College has two Certificate of Participation (COP), one for the GCATEC (Grant County Advanced Technologies Education Center) building and the other for an energy efficiency project for outside lighting.

	June 30, 2015
Certificates of Participation	\$ 2,840,000
Total	\$ 2,840,000

Additional information for notes payable, long term debt and debt service schedules can be found in Notes 12 and 13 of the Notes to the Financial Statements.

Financial Summary and Economic Factors That May Affect the Future

The College continues to exercise fiscal caution in its overall spending and budgeting, taking into consideration the state and national economic recovery and flat enrollment. With the help of federal grants, the College is introducing new programs such as Medical Simulation and Unmanned Aerial Systems and strengthening our retention and completion within our current programs. Financially the college held steady, mirroring last year's performance.

Following a trend that began in FY 2009, the College's state operating appropriations continued to decrease through FY 2013. More recently, when creating the 2013 – 2015 biennial budget, the state Legislature re-invested in community and technical colleges, restoring a small portion of the funding that had been lost in previous reductions. They continued this trend with a supplemental budget that included community colleges as a key partner in an investment in aerospace training. As a result, the net reduction of community college funding between FY 2009 and expected funding levels by the end of FY 2015 will have been a little over 15 percent. These investments in community colleges allowed the Legislature to keep FY 2015 tuition flat for resident, non-resident and baccalaureate students.

Beginning FY 2016, the Legislature enacted the Affordable Education Act, which reduced tuition by 5% at the College. This will further reduce the amount of tuition collected by the

College. The Legislature did however backfill this loss. In FY 2017, the State Board for Community and Technical College's has elected to move to a new allocation model, changing how the state allocated funds are distributed to each college. The new model will be based on performance in several key indicators from general enrollments to enrollments in high cost programs, as well as student completion and achievement points. It's unclear how much opportunity there may be for additional investments in community and technical colleges in the next few years, as state budget writers continue to grapple with court-mandated basic education obligations, therefore this new allocation model may be the only significant change that could affect the College's state allocation funding.

Notes to the Financial Statements

June 30, 2015

These notes form an integral part of the financial statements.

1. Summary of Significant Accounting Policies

Financial Reporting Entity

Big Bend Community College (the College) is a comprehensive community college offering open-door academic programs, workforce education, basic skills, and community services. The College confers associates degrees, certificates and high school diplomas. It is governed by a five-member Board of Trustees appointed by the Governor and confirmed by the state Senate.

The College is an agency of the State of Washington. The financial activity of the college is included in the State's Comprehensive Annual Financial Report (CAFR).

The Big Bend Community College Foundation (the Foundation) is a separate but affiliated non-profit entity, incorporated under Washington law in 1972 and recognized as a tax exempt 501(c)(3) charity. The Foundation's charitable purpose is to support the College's efforts to enhance student success and strengthen their communities. The Foundation does not contribute significant resources to the College. Therefore their financial statements are not combined with those of the College.

Basis of Presentation

The financial statements have been prepared in accordance with Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements and Management Discussion and Analysis for State and Local Governments* as amended by GASB Statement No. 35, *Basic Financial Statements and Management Discussion and Analysis for Public Colleges and Universities*. For financial reporting purposes, the College is considered a special-purpose government engaged only in Business Type Activities (BTA). In accordance with BTA reporting, the College presents a Management's Discussion and Analysis; a Statement of Net Position; a Statement of Revenues, Expenses and Changes in Net Position; a Statement of Cash Flows; and Notes to the Financial Statements. The format provides a comprehensive, entity-wide perspective of the college's assets, deferred inflows, liabilities, deferred outflows, net position, revenues, expenses, changes in net position and cash flows.

New Accounting Pronouncements

In June 2012, the GASB issued Statement No. 68, *Accounting and Financial Reporting for Pensions* (GASB 68), which improves accounting and financial reporting by state and local governments for pensions. This statement also supersedes GASB Statement No. 27, *Accounting for Pensions by State and Local Governmental Employers*, as well as GASB Statement No. 50, *Pension Disclosures*. GASB 68 is effective for fiscal years beginning after June 15, 2014. The College has implemented this pronouncement during the 2015 fiscal year. Implementation of this pronouncement has required a restatement of the prior year net position to reflect the net pension liability and the impact to net position.

The GASB issued Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68*, effective for the year ended June 30, 2015. This statement addresses an issue regarding application of the transition provisions of Statement No. 68. The issue relates to amounts associated with contributions, if any, made by a state or local government employer to a defined benefit pension plan after the measurement date of the government’s beginning net pension liability. The effect of Statement No. 71 to the College is to require the deferral (Deferred Outflows) of pension contributions made subsequent to the measurement date and is addressed in Note 7 to the financial statements.

Cumulative effect of change in accounting principle and prior period adjustments

The college recorded a reduction to the beginning net position balance as a result of implementing GASB Statement No. 68 and a prior period adjustment for non-capital expenses. The net position has been restated as follows:

Net Position as previously reported at June 30, 2014	\$ 39,739,090
Prior Period Adjustment:	
Net Pension Liability	(4,030,193)
Deferred Outflows	322,616
Prior Period Adjustment	(136,589)
Total Adjustments	(3,844,166)
Net Position, as restated, July 1, 2014	\$ 35,894,924

Basis of Accounting

The financial statements of the College have been prepared using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned and expenses are recorded when an obligation has been incurred, regardless of the timing of the cash flows.

Non-exchange transactions, in which the College receives (or gives) value without directly giving (or receiving) equal value in exchange includes state and federal appropriations, and certain grants and donations. Revenues are recognized, net of estimated uncollectible amounts, as soon as all eligibility requirements imposed by the provider have been met, if probable of collection.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

During the course of operations, numerous transactions occur between funds for goods provided and services rendered. For the financial statements, interfund receivables and payables have generally been eliminated. However, revenues and expenses from the College’s auxiliary enterprises are treated as though the College were dealing with private vendors. For all other funds, transactions that are reimbursements of expenses are recorded as reductions of expense.

Cash, Cash Equivalents and Investments

Cash and cash equivalents include cash on hand, bank demand deposits, and deposits with the Washington State Local Government Investment Pool (LGIP). Cash in the investment portfolio is not included in cash and cash equivalents as it is held for investing purposes. Cash and cash equivalents that are held with the intent to fund College operations are classified as current assets along with operating funds invested in the LGIP. The College records all cash, cash equivalents, and investments at date of purchase.

The College combines unrestricted cash operating funds from all departments into an internal investment pool, the income from which is allocated for general operating needs of the College. The internal investment pool is comprised of cash, cash equivalents, U.S. Treasuries and U.S. Agency securities.

Accounts Receivable

Accounts receivable consists of tuition and fee charges to students and auxiliary enterprise services provided to students, faculty and staff. This also includes amounts due from federal, state and local governments or private sources as allowed under the terms of grants and contracts. Accounts receivable are shown net of estimated uncollectible amounts.

Inventories

Inventories, consisting primarily of merchandise for resale in the college bookstore and course-related supplies, are valued at cost using first-in, first-out inventory method, also known as FIFO.

Capital Assets

In accordance with state law, capital assets constructed with state funds are owned by the State of Washington. Property titles are shown accordingly. However, responsibility for managing the assets rests with the College. As a result, the assets are included in the financial statements because excluding them would be misleading to the reader.

Land, buildings and equipment are recorded at cost, or if acquired by gift, at fair market value at the date of the gift. Capital additions, replacements and major renovations are capitalized. The value of assets constructed includes all material direct and indirect construction costs. Routine repairs and maintenance are charged to operating expense in the year in which the expense was incurred. In accordance with the state capitalization policy, all land, intangible assets and software with a unit cost of \$1,000,000 or more, buildings and improvements with a unit cost of \$100,000 or more, library collections with a total cost of \$5,000 or more and all other assets with a unit cost of \$5,000 or more are capitalized. Depreciation is computed using the straight line method over the estimated useful lives of the assets as defined by the State of Washington's Office of Financial Management. Useful lives are generally 3 to 7 years for equipment, 15 to 50 years for buildings, 20 to 50 years for infrastructure and land improvements, and 7 years for library resources.

In accordance with GASB Statement 42, the college reviews assets for impairment whenever events or changes in circumstances have indicated that the carrying amount of its assets might not be recoverable. Impaired assets are reported at the lower of cost or fair value. At June 30, 2015, no assets had been written down.

Unearned Revenues

Unearned revenues occur when funds have been collected prior to the end of the fiscal year but related to the subsequent fiscal year. The College has recorded summer and fall quarter tuition and fees, as unearned revenues.

Tax Exemption

The College is a tax-exempt organization under the provisions of Section 115 (1) of the Internal Revenue Code and is exempt from federal income taxes on related income.

Net Pension Liability

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the State of Washington Public Employees' Retirement System (PERS) and the Teachers' Retirement System (TRS) and additions to/deductions from PERS's and TRS's fiduciary net position have been determined on the same basis as they are reported by PERS and TRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Deferred Outflows of Resources and Deferred Inflows of Resources

Deferred outflows of resources represent consumption of net position that is applicable to a future period. Deferred inflows of resources represent acquisition of net position that is applicable to a future period. Changes in net position liability not included in pension expense are reported as deferred outflows of resources or deferred inflows of resources. Employer contributions subsequent to the measurement date of the net pension liability are reported as deferred outflows of resources.

Net Position

The College's net position is classified as follows.

- *Net Investment in Capital Assets.* This represents the College's total investment in capital assets, net of outstanding debt obligations related to those capital assets.
- *Restricted for Nonexpendable.* This consists of endowment and similar type funds for which donors or other outside sources have stipulated as a condition of the gift instrument that the principal is to be maintained inviolate and in perpetuity and invested for the purpose of producing present and future income which may either be expended or added to the principal.
- *Restricted for Loans.* The loan funds are established for the explicit purpose of providing student support as prescribed by statute or granting authority.
- *Restricted for Expendable.* These include resources the College is legally or contractually obligated to spend in accordance with restrictions imposed by third parties. The expendable balance for the College is funds held for student loans.
- *Unrestricted.* These represent resources derived from student tuition and fees, and sales and services of educational departments and auxiliary enterprises.

Classification of Revenues and Expenses

The College has classified its revenues and expenses as either operating or non-operating according to the following criteria:

Operating Revenues. This includes activities that have the characteristics of exchange transactions such as (1) student tuition and fees, net of waivers and scholarship discounts and allowances, (2) sales and services of auxiliary enterprises and (3) most federal, state and local grants and contracts. Examples of (3) above includes a contract with Office of Superintendent of Public Instruction (OSPI) to offer Running Start and/or Technical High School and grants received from the State Board for Community and Technical Colleges (SBCTC) that support the primary educational mission of the college.

Operating Expenses. Operating expenses include salaries, wages, fringe benefits, utilities, supplies and materials, purchased services, and depreciation.

Non-operating Revenues. This includes activities that have the characteristics of non-exchange transactions, such as gifts and contributions, state appropriations, Federal Pell grant and investment income.

Non-operating Expenses. Non-operating expenses include state remittance related to the building fee and the innovation fee, along with interest incurred on the Certificate of Participation Loan.

Scholarship Discounts and Allowances

Student tuition and fee revenues, and certain other revenues from students, are reported net of scholarship discounts and allowances in the Statements of Revenues, Expenses and Changes in Net Position. Scholarship discounts and allowances are the difference between the stated charge for goods and services provided by the College, and the amount that is paid by students and/or third parties making payments on the students' behalf. Certain governmental grants, such as Pell grants, and other Federal, State or non-governmental programs are recorded as either operating or non-operating revenues in the College's financial statements. To the extent that revenues from such programs are used to satisfy tuition and fees and other student charges, the College has recorded a scholarship discount and allowance. Discounts and allowances for the year ending June 30, 2015 are \$3,756,003.

State Appropriations

The state of Washington appropriates funds to the College on both an annual and biennial basis. These revenues are reported as non-operating revenues on the Statements of Revenues, Expenses, and Changes in Net Position, and recognized as such when the related expenses are incurred.

Building and Innovation Fee Remittance

Tuition collected includes amounts remitted to the Washington State Treasurer's office to be held and appropriated in future years. The Building Fee portion of tuition charged to students is an amount established by the Legislature is subject to change annually. The fee provides funding for capital construction and projects on a system wide basis using a competitive biennial allocation process. The Building Fee is remitted on the 35th day of each quarter. The Innovation Fee was established in order to fund the State Board of Community and Technical College's

Strategic Technology Plan. The use of the fund is to implement new ERP software across the entire system. On a monthly basis, the College's remits the portion of tuition collected for the Innovation Fee to the State Treasurer for allocation to SBCTC. These remittances are non-exchange transactions reported as an expense in the non-operating revenues and expenses section of the statement of revenues, expenses and changes in net position.

2. Cash and Investments

Cash and cash equivalents include bank demand deposits, petty cash held at the College and unit shares in the Washington State Treasurer's Local Government Investment Pool (LGIP). The LGIP is comparable to a Rule 2a-7 money market fund recognized by the Securities and Exchange Commission (17 CFR 270.2a-7). Rule 2a-7 funds are limited to high quality obligations with limited maximum and average maturities, the effect of which is to minimize both the market and credit risk. The LGIP is an unrated investment pool.

As of June 30, 2015, the carrying amount of the College's cash and equivalents was \$4,849,254 as represented in the table below.

Cash and Cash Equivalents	June 30, 2015	
Petty Cash and Change Funds	\$	3,111
Bank Demand and Time Deposits	\$	1,501,594
Local Government Investment Pool	\$	3,344,549
Total Cash and Cash Equivalents	\$	4,849,254

Investments consist of U.S. Treasury and Agency Obligations.

Investment Maturities	Fair Value	One Year or Less	1 - 5 Years	6 - 10 Years	10 or More Years
U.S. Agency Obligations	\$ 18,445,511	\$ 1,000,000	\$ 17,445,511		

Custodial Credit Risks—Deposits

Custodial credit risk for bank demand deposits is the risk that in the event of a bank failure, the College's deposits may not be returned to it. The majority of the College's demand deposits are with the US Bank. All cash and equivalents, except for change funds and petty cash held by the College, are insured by the Federal Deposit Insurance Corporation (FDIC) or by collateral held by the Washington Public Deposit Protection Commission (PDPC).

Interest Rate Risk—Investments

The College manages its exposure to fair value losses resulting from changes in interest rates by structuring the entire portfolio time horizon. Unless matched to a specific cash flow, the college generally will not directly invest in securities maturing more than five years from the date of purchase.

Concentration of Credit Risk—Investments

State law limits College operating investments to the highest quality sectors of the domestic fixed income market and specifically excludes corporate stocks, corporate and foreign bonds, futures contracts, commodities, real estate, limited partnerships and negotiable certificates of deposit. College policy does not limit the amount the College may invest in any one issuer.

Custodial Credit Risk—Investments

Custodial credit risk for investments is the risk that in the event of the failure of the counterparty to a transaction, the College will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. At June 30, 2015, the College did not have any investments subject to custodial credit risk. All investments held are in the name of the College.

Investment Expenses

Under implementation of GASB 35, investment income for the College is shown net of investment expenses. The investment expenses incurred for the fiscal year ended June 30, 2015 were \$1,173.

3. Accounts Receivable

Accounts receivable consists of tuition and fee charges to students and auxiliary enterprise services provided to students, faculty and staff. It also includes amounts due from federal, state and local governments or private sources in connection with reimbursements of allowable expenditures made according to sponsored agreements. At June 30, 2015, accounts receivable were as follows.

Accounts Receivable	Amount
Student Tuition and Fees	\$ 40,637
Due from the Federal Government	\$ 141,923
Due from Other State Agencies	\$ 827,955
Auxiliary Enterprises	\$ 21,530
Interest Receivable	\$ 39,454
Other	\$ 475,834
Subtotal	\$ 1,547,333
Less Allowance for Uncollectible Accounts	\$ (4,358)
Accounts Receivable, net	\$ 1,542,975

4. Loans Receivable

Loans receivable as of June 30, 2015 consisted primarily of student loans, as follows.

Loans Receivable	Amount
Student Loans Receivable	\$ 71,073
Less Allowance for Uncollectible Accounts	\$ (4,072)
Long-Term Student Loans Receivable	\$ 226,553
Loans Receivable, net	\$ 293,554

5. Inventories

Inventories, stated at cost using FIFO, consisted of the following as of June 30, 2015.

Inventories	Amount
Consumable Inventories	\$ 3,555
Merchandise Inventories	\$ 273,980
Inventories	\$ 277,535

6. Capital Assets

A summary of the changes in capital assets for the year ended June 30, 2015 is presented as follows. The current year depreciation expense was \$1,070,873.

Capital Assets	Beginning Balance	Additions/ Transfers	Retirements	Ending Balance
Nondepreciable capital assets				
Land	\$ 51,700	0	0	\$ 51,700
Construction in progress	\$ -	534,321	0	\$ 534,321
Total nondepreciable capital assets	\$ 51,700	534,321	0	\$ 586,021
Depreciable capital assets				
Buildings	\$ 32,382,007	154,799	0	\$ 32,536,806
Other improvements and infrastructure	\$ 811,200	184,671	0	\$ 995,871
Equipment	\$ 7,826,195	384,002	(46,272)	\$ 8,163,925
Library resources	\$ 1,861,438	0	(143,028)	\$ 1,718,410
Subtotal depreciable capital assets	\$ 42,880,840	723,472	(189,300)	\$ 43,415,012
Less accumulated depreciation				
Buildings	\$ 11,308,690	655,614	0	\$ 11,964,304
Other improvements and infrastructure	\$ 770,104	22,210	0	\$ 792,314
Equipment	\$ 6,833,358	389,322	(44,079)	\$ 7,178,601
Library resources	\$ 1,851,094	6,009	(157,089)	\$ 1,700,014
Total accumulated depreciation	\$ 20,763,246	1,073,155	(201,168)	\$ 21,635,233
Total depreciable capital assets	\$ 22,117,594	(349,683)	11,868	\$ 21,779,779
Capital assets, net of accumulated depreciation	\$ 22,169,294	\$ 184,638	\$ 11,868	\$ 22,365,800

7. Deferred Outflows and Deferred Inflows of Resources

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of equity that applies to a future period(s) and so will not be recognized as an

outflow of resources (expense/ expenditure) until then. The category of deferred outflow of resources reported in statement of net position relates to pensions.

Deferred outflows on pensions are recorded when actual earnings on pension plan investments exceed projected earnings and are amortized to pension expense using a systematic and rational method over a closed five-year period. Deferred outflows on pensions also include the difference between expected and actual experience with regard to economic or demographic factors; changes of assumptions about future economic, demographic, or other input factors; or changes in the state's proportionate share of net pension liability. These are amortized over the average expected remaining service lives of all employees that are provided with pensions through each pension plan. State contributions to pension plans made subsequent to the measurement date are also deferred and reduce net pension liability in the subsequent year.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of equity that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Deferred inflows of resources reported by the College relate to pensions.

Deferred inflows on pensions are recorded when projected earnings on pension plan investments exceed actual earnings and are amortized to pension expense using a systematic and rational method over a closed five-year period. Deferred inflows on pensions also include the difference between expected and actual experience with regard to economic or demographic factors; changes of assumptions about future economic, demographic, or other input factors; or changes in the state's proportionate share of net pension liability. These are amortized over the average expected remaining service lives of all employees that are provided with pensions through each pension plan.

The following represent the components of the College's deferred outflows and inflows of resources as reflected on the Statement of Net Position:

PERS 1	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual earnings of pension plan investments		\$ 195,936
Changes in College's proportionate share of pension liabilities		
Contributions to pension plans after measurement date	\$ 140,672	
	\$ 140,672	\$ 195,936

PERS 2/3	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual earnings of pension plan investments		\$ 695,722
Changes in College's proportionate share of pension liabilities	\$	\$ 42,942
Contributions to pension plans after measurement date	\$ 142,979	
	\$ 142,979	\$ 738,664

TRS 1	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual earnings of pension plan investments		\$ 59,483
Changes in College's proportionate share of pension liabilities	\$	
Contributions to pension plans after measurement date	\$ 21,860	
	\$ 21,860	\$ 59,483

TRS 2/3	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual earnings of pension plan investments		\$ 59,970
Changes in College's proportionate share of pension liabilities	\$	\$ 2,991
Contributions to pension plans after measurement date	\$ 17,472	
	\$ 17,472	\$ 62,961
TOTAL	\$ 322,984	\$ 1,057,045

The \$322,984 reported as deferred outflows of resources represent contributions the College made subsequent to the measurement date and will be recognized as a reduction of the net pension liability for the year ended June 30, 2016.

Other amounts reported as deferred inflows of resources will be recognized in pension expense as follows:

Year ended June 30:	PERS 1	PERS 2/3	TRS 1	TRS2/3
2016	48,984	186,200	14,871	15,643
2017	48,984	186,200	14,871	15,643
2018	48,984	186,200	14,871	15,643
2019	48,984	180,065	14,871	15,643
2020	-	-	-	388
	\$195,936	\$738,665	\$59,484	\$62,960

8. Accrued Liabilities

At June 30, 2015, accrued liabilities are the following.

Accrued Liabilities	Amount
Amounts Owed to Employees	\$ 499,766
Amounts Held for Others and Retainage	\$ 108,711
Estimated Settlement Liability	\$ 350,032
Total	\$ 958,509

9. Unearned Revenue

Unearned revenue is comprised of receipts which have not yet met revenue recognition criteria, as follows:

Unearned Revenue	Amount
Summer and Fall Quarter Tuition & Fees	\$ 264,564
Total Unearned Revenue	\$ 264,564

10. Risk Management

The College, in accordance with state policy, pays unemployment claims on a pay-as-you-go basis. The college does not have a liability for unpaid claims, the claims are paid by the Employment Security Department and then the college reimburses them quarterly. Payments made for claims from July 1, 2014 through June 30, 2015, were \$2,763. Cash reserves for unemployment compensation for all employees at June 30, 2015, were \$112,419.

The College purchases commercial property insurance through the master property program administered by the Department of Enterprise Services for buildings that were acquired with COP proceeds. The College has one building that has an outstanding COP. The policy has a deductible of \$250,000 per occurrence and the policy limit is \$100,000,000 per occurrence. The college has had no claims in excess of the coverage amount within the past three years. The College assumes its potential property losses for all other buildings and contents.

The College also purchases aviation liability and physical damage coverage administered by Department of Enterprise Services for our aviation students. The policy has a limit of \$500,000

per occurrence for physical damage and a \$25,000,000 combined single limit including passengers for liability.

The College participates in the Washington State Community College daycare program blanket benefits accident only policy as well. This policy covers our daycare activities for 52 weeks from the date of an injury. Maximum lifetime benefit is \$25,000, with no deductible and \$10,000 in accidental death benefit.

The College participates in a State of Washington risk management self-insurance program, which covers its exposure to tort, general damage and vehicle claims. Premiums paid to the State are based on actuarially determined projections and include allowances for payments of both outstanding and current liabilities. Coverage is provided up to \$10,000,000 for each claim with no deductible. The college has had no claims in excess of the coverage amount within the past three years.

11. Compensated Absences

At termination of employment, employees may receive cash payments for all accumulated vacation and compensatory time. Employees who retire get 25% of the value of their accumulated sick leave credited to a Voluntary Employees' Beneficiary Association (VEBA) account, which can be used for future medical expenses and insurance purposes. The amounts of unpaid vacation and compensatory time accumulated by College employees are accrued when incurred. The sick leave liability is recorded as an actuarial estimate of one-fourth the total balance on the payroll records. The accrued vacation leave totaled \$591,932, and accrued sick leave totaled \$571,706 at June 30, 2015.

Accrued annual and sick leave are categorized as non-current liabilities.

12. Notes Payable

In April 2004, the College obtained financing in order to build the GCATEC (Grant County Advanced Technologies Education Center) Building through certificates of participation (COP), issued by the Washington Office of State Treasurer (OST) in the amount of \$5,290,000. In March 2013, the College refinanced this COP with OST for the remaining balance of \$3,105,000; saving the College about \$335,837. Outside sources along with payments from our Bookstore and other auxiliary services assist with the payment of this payable. The interest rate charged is 1.97%.

In September 2013, the College obtained financing in order to install energy efficient upgrades to our outside lighting through certificates of participation (COP), issued by the Washington Office of State Treasurer (OST). The vendor guaranteed saving from the energy improvements are used as the repayment mechanism. The interest rate charged is 3.05%.

The College's debt service requirements for these note agreements for the next five years and thereafter are as follows:

13. Annual Debt Service Requirements

Future debt service requirements at June 30, 2015 are as follows.

Annual Debt Service Requirements			
Certificates of Participation			
Fiscal year	Principal	Interest	Total
2016	\$ 260,000	\$ 122,700	\$ 382,700
2017	\$ 280,000	\$ 110,000	\$ 390,000
2018	\$ 290,000	\$ 96,150	\$ 386,150
2019	\$ 300,000	\$ 81,650	\$ 381,650
2020	\$ 315,000	\$ 69,500	\$ 384,500
2021-2025	\$ 1,395,000	\$ 147,350	\$ 1,542,350
Total	\$ 2,840,000	\$ 627,350	\$ 3,467,350

14. Schedule of Liabilities

	Balance outs tanding 6/30/14	Additions	Reductions	Balance outs tanding 6/30/15	Current portion
Certificates of Participation	\$ 3,095,000	\$ -	\$ (255,000)	\$ 2,840,000	\$ 260,000
Compensated Absences	\$ 1,124,594	\$ 581,136	\$ (542,092)	\$ 1,163,638	\$ -
Net Pension Liability	\$ 2,265,999	\$ 322,616	-	\$ 2,588,615	\$ -
Total	\$ 6,485,593	\$ 903,752	\$ (797,092)	\$ 6,592,253	\$ 260,000

15. Pension Plans

The College offers three contributory pension plans. The Washington State Public Employees Retirement System (PERS) and Teachers Retirement System (TRS) plans are cost sharing multiple employer defined benefit pension plans administered by the State of Washington Department of Retirement Services. The State Board Retirement Plan (SBRP) is a multiple employer defined contribution plan for the faculty and exempt administrative and professional staff of the state's public community and technical colleges. The plan includes supplemental payment, when required. The plan is administered by the State Board for Community and Technical Colleges (SBCTC).

For FY2015, the payroll for the College's employees was \$3,113,191 for PERS, \$386,450 for TRS, and \$36,005 for SBRP. Total covered payroll was \$3,535,646.

Big Bend Community College implemented GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* for the fiscal year 2015 financial reporting. The College's defined benefit pension plans were created by statutes rather than through trust documents. With the exception of the supplemental defined benefit component of the higher education retirement plan, they are administered in a way equivalent to pension trust arrangements as defined by the GASB.

In accordance with Statement No. 68, the College has elected to use the prior fiscal year end as the measurement date for reporting net pension liabilities to align with the State CAFR.

Basis of Accounting

Pension plans administered by the state are accounted for using the accrual basis of accounting. Under the accrual basis of accounting, employee and employer contributions are recognized in the period in which employee services are performed; investment gains and losses are recognized as incurred; and benefits and refunds are recognized when due and payable in accordance with the terms of the applicable plan. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of all plans and additions to/deductions from all plan fiduciary net position have been determined in all material respects on the same basis as they are reported by the plans.

The following table represents the aggregate pension amounts for all plans subject to the requirements of GASB Statement No. 68 for Big Bend Community College, for fiscal year 2015:

Aggregate Pension Amounts - All Plans

Pension liabilities	\$ 2,588,615
Deferred outflows of resources related to pensions	\$ 322,984
Deferred inflows of resources related to pensions	\$ 1,057,045
Pension expense/expenditures	\$ (61,917)

PERS and TRS

Plan Descriptions. PERS Plan 1 provides retirement and disability benefits and minimum benefit increases to eligible nonacademic plan members hired prior to October 1, 1977. PERS Plans 2 and 3 provide retirement and disability benefits and a cost-of-living adjustment to eligible nonacademic plan members hired on or after October 1, 1977. Retirement benefits are vested after five years of eligible service. PERS Plan 3 has a defined contribution component that members may elect to self-direct as established by the Employee Retirement Benefits Board. PERS 3 defined benefit plan benefits are vested after an employee completes ten years of eligible service.

TRS Plan 3 provides retirement benefits to certain eligible faculty hired on or after October 1, 1977. The plan includes both a defined benefit portion and a defined contribution portion. The defined benefit portion is funded by employer contributions only. Benefits are vested after an employee completes five or ten years of eligible service, depending on the employee's age and service credit, and include an annual cost-of living adjustment. The defined contribution component is fully funded by employee contributions and investment performance.

The college also has 2 part time faculty members with pre-existing eligibility who continue to participate in TRS 1 or 2.

The authority to establish and amend benefit provisions resides with the legislature. PERS and TRS issue publicly available financial reports that include financial statements and required supplementary information. The report may be obtained by writing to the Department of

Retirement Systems, PO Box 48380, Olympia, Washington 98504-8380 or online at <http://www.drs.wa.gov/administration>.

Funding Policy. Each biennium, the state Pension Funding Council adopts PERS and TRS Plan 1 employer contribution rates, Plan 2 employer and employee contribution rates, and Plan 3 employer contribution rates. Employee contribution rates for PERS and TRS Plans 1 are established by statute. By statute, PERS 3 employees may select among six contribution rate options, ranging from 5 to 15 percent.

The required contribution rates expressed as a percentage of current year covered payroll are shown in the table below. The College and the employees made 100% of required contributions.

Contribution Rates and Required Contributions. The College's contribution rates and required contributions for the above retirement plans for the years ending June 30, 2015, 2014, and 2013 are as follows.

Contribution Rates at June 30

	FY 2013		FY 2014		FY 2015	
	Employee	College	Employee	College	Employee	College
PERS						
Plan 1	6.00%	7.21%	6.00%	9.19 - 9.21%	6.00%	9.21%
Plan 2	4.64%	7.21%	4.92%	9.19 - 9.21%	4.92%	9.21%
Plan 3	5 - 15%	7.21%	5 - 15%	9.19 - 9.21%	5 - 15%	9.21%
TRS						
Plan 1	6.00%	8.05%	6.00%	8.05 - 10.39%	6.00%	10.39%
Plan 2	4.69%	8.05%	4.69 - 4.96%	8.05 - 10.39%	4.96%	10.39%
Plan 3	5-15%	8.05%	5-15%	8.05 - 10.39%	5-15%	10.39%

Required Contributions						
	FY2013		FY2014		FY2015	
	Employee	College	Employee	College	Employee	College

Plan 3	\$ 19,826	\$ 21,677	\$ 20,304	\$ 28,164	\$ 19,400	\$ 26,896

Investments

The Washington State Investment Board (WSIB) has been authorized by statute as having investment management responsibility for the pension funds. The WSIB manages retirement fund assets to maximize return at a prudent level of risk.

Retirement funds are invested in the Commingled Trust Fund (CTF). Established on July 1, 1992, the CTF is a diversified pool of investments that invests in fixed income, public equity, private equity, real estate, and tangible assets. Investment decisions are made within the framework of a Strategic Asset Allocation Policy and a series of written WSIB adopted investment policies for the various asset classes in which the WSIB invests.

For the year ended June 30, 2014, the annual money-weighted rate of return on the pension investments, net of pension plan expenses are as follows:

<u>Pension Plan</u>	<u>Rate of Return</u>
PERS Plan 1	16.98%
PERS Plan 2/3	17.06%
TRS Plan 1	16.97%
TRS Plan 2/3	17.07%

These money-weighted rates of return express investment performance, net of pension plan investment expense, and reflects both the size and timing of cash flows.

The PERS and TRS target asset allocation and long-term expected real rate of return as of June 30, 2014, are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Fixed Income	20%	0.80%
Tangible Assets	5%	4.10%
Real Estate	15%	5.30%
Global Equity	37%	6.05%
Private Equity	23%	9.05%
Total	100%	

The inflation component used to create the above table is 2.70 percent and represents WSIB's most recent long-term estimate of broad economic inflation.

Pension Expense

Pension expense is included as part of "Employee Benefits" expense in the statement of revenues, expenses and changes in net position. The table below shows the components of each pension plans expense as it affected employee benefits:

	PERS 1	PERS 2/3	TRS 1	TRS 2/3	Total
Actuarially determined pension expense	84,949	105,318	15,537	17,548	223,352
Amortization of change in proportionate liability	(230,458)	(12,269)	(41,892)	(650)	(285,269)
Total Pension Expense	(145,509)	93,048	(26,355)	16,898	(61,917)
Deferred Outflows (FY 2015 contributions)	(140,673)	(142,979)	(21,860)	(17,472)	(322,984)
Total Adjustment to Benefit Expense	(286,182)	(49,931)	(48,215)	(574)	(384,901)

Changes in Proportionate Shares of Pension Liabilities

The changes to the College's proportionate share of pension liabilities from 2013 to 2014 for each retirement plan are listed below:

	2013	2014
PERS 1	0.035049%	0.031105%
PER 2/3	0.033763%	0.032470%
TRS 1	0.012687%	0.011501%
TRS 2/3	0.008423%	0.008091%

The College's proportion of the net pension liability was based on a projection of the College's long-term share of contributions to the pension plan to the projected contributions of all participating state agencies, actuarially determined.

Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of June 30, 2013 with the results rolled forward to the June 30, 2014 measurement date using the following actuarial assumptions, applied to all periods included in the measurement:

- Inflation 3.00%
- Salary Increases 3.75%
- Investment rate of return 7.50%

Mortality rates were based on the RP-2000 report's Combined Healthy Table and Combined Disabled Table. The Society of Actuaries published the document. The Washington Office of the State Actuary (OSA) applied offsets to the base table and recognized future improvements in mortality by projecting the mortality rates using 100 percent Scale BB. Mortality rates are applied on a generational basis; meaning, each member is assumed to receive additional mortality improvements in each future year throughout his or her lifetime.

Sensitivity of the net pension liability to changes in the discount rate

The discount rate used to measure the total pension liability was 7.50 percent. To determine the discount rate an asset sufficiency test was completed to test whether the pension plan's fiduciary net position was sufficient to make all projected future benefit payments of current plan members. Consistent with current law, the completed asset sufficiency test included an assumed 7.70 percent long-term discount rate to determine funding liabilities for calculating future contributions rate requirements. Consistent with the long-term expected rate of return, a 7.50 percent future investment rate of return on invested assets was assumed for the test.

Contributions from plan members and employers are assumed to continue to be made at contractually required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return of 7.50 percent on pension plan investments was applied to determine the total pension liability.

The following presents the net pension liability of the College calculated using the discount rate of 7.50 percent, as well as what the College's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50 percent) or 1-percentage-point higher (8.50 percent) than the current rate.

Pension Plan	1% Decrease	Current	1% Increase
	(6.50%)	Discount Rate (7.50%)	(8.50%)
PERS Plan 1	\$1,931,393	\$1,566,929	\$1,254,072
PERS Plan 2/3	\$2,737,718	\$656,336	(\$933,452)
TRS Plan 1	\$436,526	\$339,217	\$255,689
TRS Plan 2/3	\$227,150	\$26,133	(\$123,282)

State Board Retirement Plan (SBRP)

Plan Description. Faculty and exempt administrative and professional staff are eligible to participate in SBRP. The Teacher's Insurance and Annuity Association (TIAA) and the College Retirement Equities Fund (CREF) are the companion organizations through which individual retirement annuities are purchased. Employees have at all times a 100% vested interest in their accumulations.

TIAA-CREF benefits are payable upon termination at the member's option unless the participant is re-employed in another institution which participates in TIAA-CREF.

The SBRP plan has a supplemental payment component that guarantees a minimum retirement benefit goal based upon a one-time calculation at each employee's retirement date. The SBCTC makes direct payments on behalf of the College to qualifying retirees when the retirement benefit provided by TIAA-CREF does not meet the benefit goal. Employees are eligible for a non-reduced supplemental payment after the age of 65 with ten years of full-time service.

The minimum retirement benefit goal is 2% of the average annual salary for each year of full-time service up to a maximum of 25 years. However, if the participant does not elect to make the 10% TIAA-CREF contribution after age 49, the benefit goal is 1.5% for each year of full-time service for those years the lower contribution rate is selected.

The State Board for Community and Technical Colleges is authorized to amend benefit provisions under RCW 28B.10.400. In 2011, the plan was amended to eliminate the supplemental benefit provisions for all employees hired after June 30, 2011.

Contributions. Contribution rates for the SBRP (TIAA-CREF), which are based upon age, are 5%, 7.5% or 10% of salary and are matched by the College. Employee and employer contributions for the year ended June 30, 2015 were each \$598,867 and \$598,346, respectively.

The SBRP supplemental pension benefits are unfunded. For the year ended June 30, 2015, supplemental benefits were paid by the SBCTC on behalf of the College in the amount of \$583,625. In 2012, legislation (RCW 28B.10.423) was passed requiring colleges to pay into a Supplemental Benefit Fund managed by the State Investment Board, for the purpose of funding future benefit obligations. During FY 2015, the College paid into this fund at a rate of 0.5% of covered salaries, totaling \$36,005. As of June 30, 2015, the Community and Technical College system accounted for \$7,729,471 of the fund balance.

Washington State Deferred Compensation Program

The College, through the state of Washington, offers its employees a deferred compensation plan created under Internal Revenue Code Section 457. The plan, available to all State employees, permits individuals to defer a portion of their salary until future years. The state of Washington administers the plan on behalf of the College's employees. The deferred compensation is not available to employees until termination, retirement or unforeseeable financial emergency. The College does not have access to the funds.

Other Post-Employment Benefits

Health care and life insurance programs for employees of the state of Washington are administered by the Washington State Health Care Authority (HCA). The HCA calculates the premium amounts each year that are sufficient to fund the statewide health and life insurance programs on a pay-as-you-go basis. These costs are passed through to individual state agencies based upon active employee headcount; the agencies pay the premiums for active employees to the HCA. The agencies may also charge employees for certain higher cost options elected by the employee.

State of Washington retirees may elect coverage through state health and life insurance plans, for which they pay less than the full cost of the benefits, based on their age and other demographic factors. The health care premiums for active employees, which are paid by the agency during the employees' working careers, subsidize the "underpayments" of retirees. An additional factor in the Other Post-Employment Benefits (OPEB) obligation is a payment that is required by the State Legislature to reduce the premiums for retirees covered by Medicare (an "explicit" subsidy). This explicit subsidy is also passed through to state agencies via active employee rates charged to the agency. There is no formal state or College plan that underlies the subsidy of retiree health and life insurance.

The actuary allocated the statewide disclosure information to the community and technical college system level. The SBCTC further allocated these amounts among the colleges. The College's share of the GASB 45 actuarially accrued liability (AAL) is \$7,755,665, with an annual required contribution (ARC) of \$757,831. The ARC represents the amortization of the liability for FY 2015 plus the current expense for active employees, which is reduced by the current contributions of approximately \$95,277. The College's net OPEB obligation at June 30, 2015 was approximately \$1,122,901. This amount is not included in the College's financial statements.

The College paid \$1,606,821 for healthcare expenses in 2015, which included its pay-as-you-go portion of the OPEB liability.

16. Operating Expenses by Program

In the Statement of Revenues, Expenses and Changes in Net Position, operating expenses are displayed by natural classifications, such as salaries, benefits, and supplies. The table below summarizes operating expenses by program or function such as instruction, research, and academic support. The following table lists operating expenses by program for the year ending June 30, 2015.

Expenses by Functional Classification	
Instruction	\$ 8,573,980
Academic Support Services	\$ 822,182
Student Services	\$ 2,719,379
Institutional Support	\$ 2,579,317
Operations and Maintenance of Plant	\$ 3,514,679
Scholarships and Other Student Financial Aid	\$ 4,018,527
Auxiliary enterprises	\$ 3,308,957
Libraries	\$ 598,825
Ancillary Support Services	\$ 1,292,625
Depreciation	\$ 1,070,873
Total Operating Expenses	\$ 28,499,345

17. Commitments and Contingencies

There is a class action lawsuit, *Moore v HCA*, filed against the State of Washington on behalf of former part-time and non-permanent employees alleging improper denial of healthcare benefits. Although the College has not been named as a defendant in the lawsuit, some of the class members are current or former employees of the College. Potentially, the state could assess the College with a material share of any amount paid in the event of a settlement or judgment. As of the end of FY 2015, the parties have reached a settlement agreement with the plaintiffs to settle all matters relating to this and related lawsuits. Final settlement is contingent on a) funding of the settlement by the legislature and b) final approval by the trial court if funding is provided.

Additionally, the College is engaged in various legal actions in the ordinary course of business. Management does not believe the ultimate outcome of these actions will have a material adverse effect on the financial statement.

The College has commitments of \$561,000 for various capital improvement projects that include construction and completion of new buildings and renovations of existing buildings.

18. Net Position Restatement

As of July 1, 2014, net position as previously reported was restated. The College has adjusted the Beginning Net Position for FY 2015 to correct the prior year's reporting of non-capital expenses. This resulted in an overstatement of the ending Net Position for FY 2014.

Ending Net Position, June 30, 2014	\$39,739,090
Restatement:	
Cumulative effect of change due to GASB 68	\$(3,707,577)
Prior period adjustment	\$ (136,589)
Beginning Net Position, July 1, 2015	\$35,894,924

19. Subsequent Events

On March 29, 2016 the legislature passed the supplemental budget which included an appropriation to fund the settlement for the *Moore v. HCA* lawsuit. The State Board for Community and Technical College's (SBCTC) portion of this obligation is \$32 million of which \$19 million is funded by the legislature and the remaining \$13 million will be allocated among 34 colleges in the system. At this time, Big Bend Community College total obligation is expected to be \$350,032.
