Career Outlook

The Bachelor's in Applied Management (BAS-AM) degree builds upon your existing associate degree by adding junior and senior year courses focusing on applied management. The program provides customized high-demand management skills courses geared toward the needs of various industry sectors in the local economy.

BAS-AM Education Opportunities

Perfect for working adults who need more flexibility in their schedules and have a job or family responsibilities.

Gain the knowledge and skills necessary to enter, advance in the field of management or supervisory positions, or start your own business in almost every business and industry.

Complete a capstone project in year two of the program that is an opportunity to develop a meaningful product as an accumulation of the course work and a demonstration of your learning!
