Career Outlook

The Bachelor's in Behavioral Health (BAS-BH) degree builds upon your existing associate degree by adding junior and senior year courses focusing on behavioral health, case management, counseling, neuroscience, therapeutic skills, and treatment of mental health disorders.

BAS-BH Education Opportunities

The program is delivered in partnership between BBCC and Wenatchee Valley College. Students are co-enrolled in courses at both colleges, and receive advising, support services, and financial aid from their home college.

The BAS-Behavioral Health program is designed for adult learners who need flexibility in their schedules to balance work and family responsibilities. The program prepares graduates to deliver evidence-based interventions for common behavioral health conditions as part of an integrated care team or serving as case managers, care coordinators, client advocates, and crisis responders.

Length of Program

90 credits = 6 quarters* if you take 15 credits each quarter.

*Your specific route may take longer than 6 quarters depending on the number of credits you take each quarter.

Which Quarter Can I Begin?

The BAS-BH program can be started Fall quarter.

Program Modality

The BAS-BH program is thoughtfully designed to meet the needs of working professionals and place-bound students. To provide flexibility and accessibility, courses are offered in a hybrid format. Students will attend live sessions three times per quarter, with the remainder of the coursework completed online, ensuring a balanced and convenient learning experience. Faculty will use web-enhanced technology during live-sessions to ensure students can participate at the host site or from home.

Helpful Hints

- Admission into the BAS-BH program is required for all upper division (300 and 400-level) courses.
- Students from associate degree programs in criminal justice, early childhood education and medical assistant are encouraged to apply.
