

Student Success Outcomes – 2013

The third of three reports to the Big Bend Community College Board of Trustees on progress toward goals of the 2009–2014 Academic Master Plan

Presented to the BBCC Board of Trustees, October 24, 2013
Prepared by the Office of Institutional Research & Planning
Valerie Kirkwood, Dean of Institutional Research & Planning
Starr Bernhardt, Research Analyst

Mission Statement

(Adopted May 2013)

Big Bend Community College delivers lifelong learning through commitment to student success, excellence in teaching and learning, and community engagement.

BBCC Board of Trustees' Ends Statements

The BBCC Board of Trustees provides policy direction through the following Ends Statements derived from the college Mission. The Ends Statements are implemented through the BBCC 2009-2014 Academic Master Plan.

E-1 Mission

The mission of BBCC is to serve the educational needs of a diverse population throughout its service district.

E-2 Access

BBCC provides quality resources and affordable access to the diverse population of its entire district.

E-3 Partnerships

BBCC works with organizations and agencies to enhance access and services for our district population.

E-4 Student Achievement

BBCC students and clients develop and achieve their goals supported by the staff and resources of the college and its partners.

E-5 Climate

BBCC provides and maintains a climate of purpose, respect, and safety for students, staff, and partners.

E-6 Multiculturalism

The Board will promote a climate of cultural understanding to be reflected in an approach for both students and college employees that results in an attitude of inquiry and openness. In the workplace and community, this approach sets a standard for customer service and civility in all interactions. In the classroom it leads to understanding of our world and the people in it.

BBCC Core Themes

(Approved June 2013)

Student Success
Excellence in Teaching and Learning
Community Engagement

2013 Summary Report Card	9

Student Success

This summer, BBCC trustees, faculty, and staff again undertook the interactive process of reviewing and analyzing data related to student success to determine if we met the goals of our 2009-2014 Academic Master Plan (AMP) and to provide suggestions for future direction. The 2012-13 academic year marked the fourth year of our current strategic plan, which expires in 2014.

College strategic goals are indicated in the eight outcomes under the 2009-2014 AMP areas of Access, Programs, and Outcomes and are guided by the Board of Trustees' six Ends Statements. This review process involves a high level of engagement with college data by trustees and personnel.

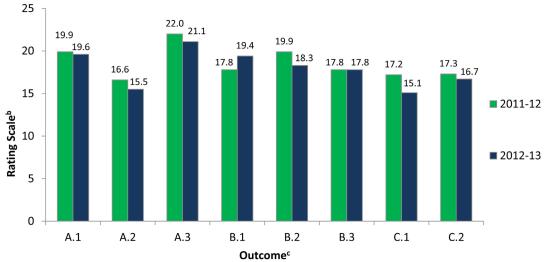

After reviewing data provided in the **Outcomes – 2013 Workbook**, the groups rated the college's efforts toward meeting the goal of each outcome on a scale of 0 (not effectively meeting the goal) to 25 (very effectively meeting the goal). They also answered questions related to each outcome, whether we met our goal, and provided suggestions on direction for the upcoming year. This information was captured through open discussions with the Board of Trustees, Division Chairs,

and Cabinet. The results were summarized and are included here in the 2013 Summary Report Card (p. 9).

One point that was continually raised among these groups was the use of the word "adequate" when asked to judge use of resources, enrollments, success and graduation rates, and advising efforts. All groups agreed that "acceptable" would be a more appropriate word in these cases, since we continually strive to provide the best experience for our students.

In May of this year, BBCC adopted a new Mission Statement: Big Bend Community College delivers lifelong learning through commitment to student success, excellence in teaching and learning, and community engagement. New Core Themes were approved in June that reflect the intention of this new Mission and a committee of faculty and staff is currently writing the new 2014-2019 Academic Master Plan. Our reporting process will continue to be critical in providing the outcomes-based evidence needed to determine how effective college-level activities are at satisfying goals of college policies.

Overall scores^a of the AMP Outcomes 2011-12 vs 2012-13

^aAverage of all scores provided by trustees, faculty, and staff during the Outcomes - 2013 review process; non-weighted ^b0 = not effectively meeting outcome; 25 = very effectively meeting outcome

^cA.1, A.2, A.3 are ACCESS indicators; B.1, B.2, B.3 are PROGRAMS indicators; C.1, C.2 are OUTCOMES indicators

ACCESS

Providing information about college resources and engaging community members with those resources is the focus of ACCESS. Increasing community awareness of college resources is expected to increase enrollment. As students become aware of and use these support services, they will be successful in reaching their goals.

A.1 Use of college resources improves student success Average Ratings of Outcome A.1

	2011-12	2012-13
BBCC Staff	19.9	19.5
Board of Trustees	19.8	20.0
Overall	19.9	19.6

Although the majority of feedback indicates that an adequate number of students are using college resources, the relationship between using resources and student success is vague. Some people felt that the use of resources more strongly correlated to retention than success.

Resources that improved student success and retention included New Student Orientation (NSO), the English Lab, TRiO-SSS, and the Student Success Center. These provide hands-on, highly interactive engagement with students who need help.

Increasing internal advertising of available services to faculty and students will engage more students with these services and increase success and retention rates.

A.2 Increased college contact with potential students leads to increased enrollment

Average Ratings of Outcome A.2

	2011-12	2012-13
BBCC Staff	16.5	15.1
Board of Trustees	17.5	17.2
Overall	16.6	15.5

Trustees and staff did not feel that we adequately met this outcome, which was the second to the lowest rated outcome and has decreased from last year. This conclusion was reached based on evidence of decreased enrollment and underrepresentation of populations from the entire service district.

The lack of a full-time Coordinator of Student Recruitment and Outreach could have affected enrollment in some programs. One area to focus recruitment and outreach efforts in is the service district high schools. Increasing the BBCC presence in these schools and building stronger relationships between college personnel and high school teachers and counselors would improve the pathway for students to move from secondary into post-secondary education at BBCC.

Suggestions for increased contact with potential students involve increased marketing through social media and improved branding. This could be started by researching best practices for innovate outreach methods and, possibly, a marketing study performed by an outside consultant.

Retired TRiO Director, Jerry Workman (center), serves cake as BBCC students and staff celebrate national TRiO day.

BBCC President Terry Leas (left) and BBCC Junior Flight Instructor, Ross Quarre (right), display the Big Bend banner at Quincy's Farmer/Consumer Awareness Day parade in September, 2013. CDL Instructor Guillermo Garza drives the Big Bend semi-truck behind them.

A.3 Meet or exceed state FTE target Average Ratings of Outcome A.3

	2011-12	2012-13
BBCC Staff	22.0	20.7
Board of Trustees	21.8	22.8
Overall	22.0	21.1

Although FTEs have increased slightly over the past five years and we exceeded our state FTE target by 3.9% in 2012-13, state FTEs have decreased 8% and total FTEs have decreased 11% since 2010-11. To meet our enrollment target for the coming year, we need to improve relationships with area high schools.

The college is currently exploring AVID for Higher Education (AHE). AVID (Advancement Via Individual Determination) is a K-12 program through which

students — many of whom are at-risk to fail — learn skills to help them succeed in school. Many primary and secondary schools in the college's service district are experiencing student success through this program. AVID for Higher Education extends the AVID philosophy to post-secondary education, providing a pathway for students transitioning to college-level work and the support they need to reach their educational goals. Further investigation into the program will determine if it would benefit future BBCC students.

Additional ways to increase FTE are to make college offerings more relevant to our community needs, expand marketing efforts, and increase outreach activities and relationships throughout the community.

PROGRAMS

PROGRAMS focuses on student achievement data: success in courses, improved retention rates, and completions. Disaggregated data help identify achievement gaps among groups and strategies to reduce and eliminate these gaps are developed.

B.1 Students complete courses with a grade of passing or 2.0 grade point or higher

Average Ratings of Outcome B.1

	2011-12	2012-13
BBCC Staff	17.9	19.4
Board of Trustees	16.8	19.6
Overall	17.8	19.4

Outcome B.1 was the most improved from last year, increasing from an overall score of 17.8 to 19.4. The overall student success rate in 2012-13 was 79% - a 6% increase over 2011-12. Faculty, staff, and trustees were pleased with this improvement and stressed that we should always strive to do better.

Classes of most concern were those with success rates lower than 65% or ones with consistently low rates. (Success is defined here as students earning a 2.0 grade point or a pass grade in class.)

In addition to expanding support for students through increased support services such as mentoring, supplemental instruction, tutoring, etc., many

participants felt that expanding the Emporium model of instruction to other areas (if possible) would help improve success.

Another successful model of instruction is the Early Childhood Education (ECE) I-BEST program. This program offers hybrid classes that enroll high-risk students (under-prepared, first-generation, second-language learners), with very high success rates.

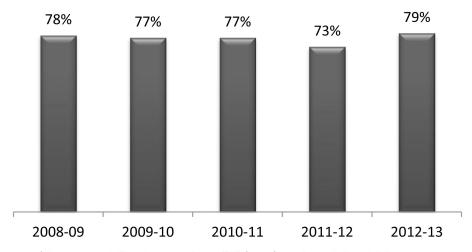

B.2 Advising and counseling lead to improved student retention and success

Average Ratings of Outcome B.2

	2011-12	2012-13
BBCC Staff	20.0	17.6
Board of Trustees	19.3	20.2
Overall	19.9	18.3

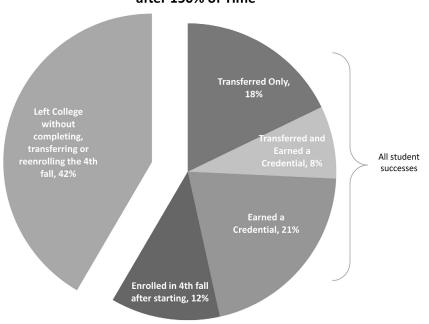

Retention and success rates have improved over last year. Overall student retention (fall-to-spring, new students who completed 15 credits during their first year) has increased 13% over the past five years, and the performance gaps between Latino and white males and Latino and white females have closed. Student success in classes has increased 6% from 2011-12 to 2012-13. However, the college still struggles to capture advising data. Because of this, opinion was split on whether or not our advising efforts were adequate last year.

Overall Success Rates* in All Courses

*Success is defined as earning a "P" (pass) grade or 2.0 or higher

Earned a Credential, Transferred, or Reenrolled after 150% of Time

^{*}Three-year average, students who started in fall 2007, 2008, and 2009 and earned 15 credits in their first year

Introduction of the Advisor Data Portal (ADP) in 2013-14 will centralize student data and allow advisors to access student records easily and in one location. Data on advising can be directly pulled from this system for analysis and correlation to student retention and success. This data will help us better understand the advising process and where we can make improvements.

Based on the data available in this reporting cycle, both staff and trustees felt that white males lag behind other demographic groups in relation to using advising services. Recruiting more white male mentors was suggested as a way to attract more of this demographic group to services offered through the Student Success Center. Mandatory advising was another suggested way to improve retention and success.

B.3 Students persist to attain completions, certificates, or degrees

Average Ratings of Outcome B.3

	2011-12	2012-13
BBCC Staff	18.0	17.6
Board of Trustees	17.0	18.8
Overall	17.8	17.8

Compared to community colleges across the nation, we felt we adequately met the goal of this outcome. However, performance on this outcome does not meet our own internal standards for persistence and completions. Although the gap in retention between Hispanic and white students has closed, there is still work to be done in reducing the gap in graduation rates between these groups.

In addition to IPEDS graduation rates, other measures by which to gauge our completion success include: certificates of completion, employment rates, National Community College Benchmark Project (NCCBP) data, Student Achievement Initiative (SAI) points, performance of students from similar community colleges (if possible), and success of transfer students at university. Hispanic students need continued support to reach their completion goals, as well as students in precollege level classes and those with unclear intent.

OUTCOMES

OUTCOMES focuses on program-specific recruitment efforts and enrollment, student characteristics by intent and program, and eLearning enrollments and success rates.

C.1 Resource awareness and recruiting activities result in increased enrollment in specified groups

Average Ratings of Outcome C.1

	2011-12	2012-13
BBCC Staff	16.9	14.7
Board of Trustees	19.0	16.8
Overall	17.2	15.1

This outcome was the lowest rated by both the trustees and staff this year. Overall, enrollment (headcount) decreased 3% since 2011-12 and has dropped 15% over the past five years. Although headcount is down, FTE (full-time equivalent) enrollments are up slightly – indicating that fewer students are enrolled, but they are taking more credits.

One focus of the Public Information Director was to increase targeted advertising last year. Targeted advertising includes program-specific advertising intended to increase awareness of and, therefore, enrollments in specific programs. Improved enrollments may not be seen until the following quarter or even year.

Similar to feedback from Outcome A.2 discussed previously, increased marketing through social media and improved branding were suggestions for attracting more students. Professional/Technical programs such as Automotive, MIST (Mechanized Irrigation Systems Technology), and Computer Science were mentioned as areas to target. Staff suggested that every program should set enrollment goals that are reviewed annually.

Enrollment in some programs may have been affected by the absence of a full-time Coordinator of Student Recruitment and Outreach in 2012-13. This past summer (2013) a new full-time Coordinator was hired at the college. Her focus is on developing relationships with local schools, organizations, businesses, and industries to motivate potential students and improve enrollment where it is declining.

C.2 Utilization of technology and eLearning lead to student engagement and success

Average Ratings of Outcome C.2

	2011-12	2012-13
BBCC Staff	17.0	16.0
Board of Trustees	18.8	18.8
Overall	17.3	16.7

Success rates in online and hybrid classes are not as high as success rates in on-ground or web-enhanced classes. Trends noted by college trustees and staff were that eLearning does not match the face-to-face classroom experience when it comes to student success in classes. Technology, when used in conjunction with face-to-face instruction can greatly enhance it (Emporium math, for example). In order to provide quality distance learning opportunities, better online support must be developed for students in these classes.

"In K-12, there are iPads in the classrooms and information is moving through the cloud. Are we [the college] keeping up with this?"

- BBCC Trustee

Discussions about other technologies that possibly affect student engagement included smart devices and the opportunities they afford students in accessing notes, slideshows, online books, etc. at their convenience. Social media such as Facebook provide avenues for students to communicate with other students, study groups, college services representatives, and others, and allows students easy access to information that will help them successfully reach their goals. Potential students in the K-12 system are already using these technologies in school and the college will be better able to serve these students by using technology to support instruction.

CONCLUSION

One common theme that arose from this year's Outcomes review was enhanced outreach efforts, including marketing. Enhanced relationships between college and high school counselors and teachers would strengthen partnerships with K-12 and improve the flow of college-going students from our service district high schools.

Exploring AVID for Higher Education to build on our current student success strategies may also help district high school students who participated in AVID during their secondary education make a seamless and successful transition to BBCC. Connecting through AVID strategies may provide support needed for these students to successfully navigate the college environment.

Strengthening the college's branding and becoming more visible in outlying communities would help increase awareness of college resources. Delivering advertising in Spanish would also expand our audience and potential student base. Additionally, effective messaging through social media would provide

opportunities to increase our presence to potential and current students.

Indicators such as the National Community College Benchmarking Project (NCCBP) — new to BBCC this year — provide the college with additional ways to measure institutional effectiveness and student success. As we progress through the next reporting cycle, we will continue to analyze data on student trends and use results to adapt our efforts to increase student success.

The **Outcomes - 2013** data review process embodies the college's culture of evidence to guide decision making and direction in setting college goals. In using data to direct efforts moving forward, BBCC adopted a new Mission Statement in May 2013. In June 2013, new Core Themes were approved that reflect the intention of the college's new Mission. A committee of faculty and staff is rewriting the Academic Master Plan (AMP) to guide priorities for the use of college resources to achieve college effectiveness and reporting on the results of these efforts.

Outcomes Summary 2012-13

	Summary of discussion Ideas to Improve Results					
	A.1 Use of college resources improves student success

Outcome A.1 Use of college resources improves student success

Average Rating: 19.5

20.0

0'''5'''10'''15''''20''''25

Overall, is there adequate use of college resources?

NOTE: discussion raised on changing the word "adequate" to "acceptable"

Yes (17)

- Need numbers to address "adequate" 79% does not tell the whole picture (e.g. 7.9/10 is not the same as 79/100)
- Correlation with retention is stronger than with success
- Trend data averages over five years should be reported
- Library resources and their effect on student success need to be tracked (2)
- How do students define success?
- Data on the intervention scholarships and emergency funding through the Foundation and how it relates to student success would help
- Most of the data we have here is not correlated to student success. IF we can do this with the English Skills Lab, why not TRIO and SSC? Retention numbers and comparison to national numbers are fabulous!
- Greater success seen at a full-time level rather than part-time; access to and awareness of resources
- What about the effect of College Success Skills classes is there retention information of those students?

Yes (4)

What is "adequate"?

Which services and resources impact student success?

- New Student Orientation (8) and TRIO (6) seem to have the most impact
- Student Success Center (SSC) (4)
 - Growing, but seems limited
 - Concerns about Student Success Center (2)
 - 3% more likely to retain students (3)
 - Use by females increases, but males decreases what is happening to males?
 Decreased engagement?
 - SSC services are not advertised sufficiently to Professional/Technical faculty
 - Offer facility tours
 - Bring a SSC representative to Prof/Tech classes to explain services
 - Team-up SSC with ASB to enhance results
- English (7) and Math Labs (2)
- Computer Labs
- Library + success

- According to CCSSE, students do not get much out of it
- Professional/Technical equipment/technology
- Supplemental Instruction (SI)
 - Very useful
 - SI Leaders
- ASB events (3)
- Financial Aid/Advising, grants, "customer service" (2)
- Peer Mentoring (2); peer advocates
- Student leader training and service learning
- ALL services support each other and weave services together; students use multiple resources to achieve success
- Academic Early Warning
- Advisor Data Portal
- Tutoring (3)
- Textbook and laptop loans (2)
- Scholarships (1079 undocumented students)
- Changes in Developmental Math rock!
- TRIO (2)
- New Student Orientation (3)
- Student Success Center (3)
- **Emporium** math
- What are male Hispanic students asking for or NOT for help?

Suggestions for other services and resources:

- Increase use of services by increased marketing of available services (internally) Student Success Center information needs to be shared with Prof/Tech faculty
- Intermural sports (soccer)
- Broadcast Sounders games in Masto as an engagement piece
- Offer academically focused intermural activities also (sentence diagram competitions)
- Movie night? Market to the general campus
- Females: nonacademic responsibilities 24% need help
- Males need encouragement
- Potential of AVID for Higher Education
 - Improve student's study skills and critical thinking skills
 - Recruiting tool (AVID secondary students transition directly to AVID college/BBCC)
 - AVID provides professional development for faculty which should positively impact student success (this can also be reflected in our new Values and Core Themes -Excellence in Teaching and Learning
- Increase the number of counselors

A.2 Increased college contact with potential students leads to increased enrollment

Average Rating: 15.1
17.2

O'''5'''10'''15''''20''''25

Are we attracting an adequate number of students from the service district?

NOTE: discussion raised on changing the word "adequate" to "acceptable"

Yes (3)

- Overall; not adequate in selected communities
- Adequate but we need to see more students from all areas of our service district increase we should work to more closely reflect the growth in our service area's population
- Enrollment is up, but some areas are substantially underrepresented

No (16)

- Enrollment decrease of 15%
- Headcount is down
- Information to help rate this outcome is lacking: Why are students here? How did they hear about BBCC? Etc.
- Many service areas have had a significant decline in enrollments university or other community colleges?

Yes (1)

No (4)

- Enrollment from rural districts lagging
- Less [college] name recognition in those school districts

Are there specific areas in which we should focus recruitment and outreach efforts?

- English placement test preparation
- Social media (3)
 - Facebook and Twitter
 - o BBCC website
 - The BBCC name, location, and website address needs to be printed on EVERYTHING and seen EVERYWHERE!
- Professional/Technical high school counselor open house
- Increase recruitment locally and outside of the service district
 - Vacancy in outreach hurt efforts last year
 - Provide recruitment tools to ALL BBCC staff (script? Follow-up methods?) for recruiting in the community "ad hoc"
 - At least take potential students' name and contact number and a college representative will follow up, meet them on campus for a personal tour, or arrange a meeting with the necessary people on campus
- G.I. Bill
- 43% of students are Hispanic...translate entire website into Spanish

- Non-traditional students in Professional/Technical programs
- Need new marketing strategies
- Increase BBCC presence in service district high schools (4)
 - Moses Lake High School and alternative school (3)
 - Shadow (audit) programs/classes
 - Counselors at high schools (2)
 - Stronger relationships with high schools, teachers, and counselors
 - o Bring counselors here and "wine and dine" them
 - Faculty-to-faculty outreach (BBCC to high school) (3)
 - "Get to know you" sessions at schools; approachable, focused on success
 - Ephrata and Warden (2) high schools
 - Ritzville High School
 - Lind
- Minimize out-of-state recruitment (athletes)
- District specific contact varies area for growth
- Enrollment in fall 2013 will reflect changes in advising Prof/Tech students
- Outlying schools Almira/Coulee/Hartline, Lake Roosevelt, Odessa (3)
- Continue working with industry
- Implement AVID for Higher Education (2)
- Community meetings
- Marketing
 - BBCC needs a strong marketing plan possibly based on a marketing study by an outside consultant? Branding is weak and newspaper is the least effective marketing tool today.
 - How successful is our marketing? Need to assess this and fight for students that are going to other community colleges. Billboards, social media, etc.
 - Marketing efforts to older students
 - Focus on direct marketing better way to reach all potential new students
 - Messages need to be *strategically* given in Spanish as well
- More tours for parents and students
- Feature student leaders
- Agriculture

Suggestions for additional information:

- College outreach reports
 - Work with Rita Ramirez on tracking her outreach efforts and how to correlate that with
- Research best practices for innovative/creative outreach methods
- Marketing study by an outside consultant

A.3 Meet or exceed state FTE target

Average Rating: 20.7

22.8

What do we need to plan for in the coming year to meet our enrollment target?

- Rebuild relationship with Moses Lake High School
- Recognize disconnect between high school and college learning
- Update our Arts & Sciences degree to better align with universities
 - o Better alignment with university degree requirements and use this as a marketing tool
- Ask students for suggestions and referrals
- Make college offerings more relevant to our community populations
- Increase marketing (2) and outreach (3)
 - Increase number of high school visitations
 - o Google search optimization engine (i.e. AMT Program) (2)
 - More advertising
 - o Connect academically at-risk students sooner to tutoring services
- Move away from print media use Facebook, I-Fiber, etc.
 - Need to develop a social media strategy webmaster?
 - The new webmaster will be able to help "speak" to future students in ways we currently are not or are not doing well
- Webpage
 - o Improve website with new energy and perspective, youthful vigor, and accuracy (2)
 - Improved search capabilities on webpage (2)
- Look at dropping enrollment in the Business Division (2)
- We need to know this year's goal/target overall and per division and program
- Improve advising (2)
 - More counseling/advising
- Add classes (3)
 - Classroom availability (2)
 - Students are not getting into classes they want
- Develop committee that would assess the need for soccer programs
- Use high school counselors in summer at BBCC they return to their schools and become advocates
- Enrollment management
- Annual planning for non-traditional course schedule: evening, weekend, online, hybrid classes
- Build awareness of Engineering and Computer Science programs
- Continue Facilities Master Plan (3)

- AVID for Higher Education (3)
- Add more faculty and classes (2)
 - o Consider Agriculture programs (re: Grant County Economic Development Counsel trends/data)
- Marketing (2)
 - Comprehensive one venue/format will only reach one segment of the population; increase use of videos, billboard, and social media
 - Printed/updated branding

Additional information:

- How many students use online orientation?
- What was the attendance of New Student Orientation by new students only (i.e. students who have not attended college before)?

B.1 Students complete courses with a grade of passing or 2.0 grade point or better

Average Rating: 19.4

19.6

Our current overall success rate is 79%. Is our overall success rate adequate?

NOTE: discussion raised on changing the word "adequate" to "acceptable"

Yes (16)

- Continue efforts to improve
- Developmental English numbers are amazing; there is always room for improvement

No (0)

Yes (4)

No (1)

Adequate [but always strive for better]

Are there areas of concern or best practices we should focus on?

- Direct advising for English 099 students for English 101
- Encourage reading as an institution
- Focus on classes with rates lower than 65% (3) or with low rates for several years
- Expand/replicate Emporium model of instruction (8)
 - Sociology and Art History are starting to incorporate the Emporium model; Political Science is moving in this direction, but History struggles with applying the concepts in the timeframe
 - Applied math classes could these be Emporium model candidates?
 - Flipped classrooms
- ECE Program is dominated by under-prepared, first generation, second-language learners...classes offered as hybrid...high pass rates...find out what they are doing to create success
 - They are doing I-BEST!
- Examine course content of, teaching style of, and student preparation for classes with lower success rates
- Implement AVID for Higher Education
- Expand Peer Mentors, Supplemental Instruction, etc.
- Examine success rates for courses that are pre-requisites for other classes
- CSS 100 too high of a drop out and failure rate
- Concerned about math courses below 100 level (2); pass/fail option presents transfer students restrictions at four-year colleges
- MATH 080 is better suited as a Basic Skills class
- All classes below 50% success and/or high withdrawal rates too many of these

- Implement QM across the curriculum
- Support for developmental math/science Student Success Center is on the right track
- New (or re-constituted) strategies
- BIM classes; instead of the dropping of credits, continue to add credits when complete (total nightmare for financial aid)
- More high school contacts and tutoring (2)
- AVID for higher education (2)
- Emporium English (2)
- Ever improving math success rates

Suggestions for additional information:

• The 2012-13 Course Success Rates by Division document is excellent

B.2 Advising and counseling lead to improved student retention and success

Average Rating: 17.6 20.2

0'''5''''10''''15''''20''''25

Are overall advising efforts adequate?

NOTE: discussion raised on changing the word "adequate" to "acceptable"

Yes (7)

- Yes, but we are receiving too many complaints from students who claim they were poorly advised – there is clearly room for improvement
- The gap between white and Hispanics has closed, a goal we set several years ago

No (5)

- Advising and counseling are two different things
- Not sure who students perceive as advisors
- Need better/more consistent training for advisors
- Need specialists in specific program areas (nursing, welding, etc.)
- Tough to say...there is lack of data on advising efforts (2), so no correlation to student success can be made
- Self-advising is still too common

Yes (3)

No (2)

Are there any groups of students that are falling behind? If so, please list:

- White males need to take more advantage of advising (7)
- Running Start
- 1079 students undocumented (2)
- Student athletes
- Students receive inconsistent advising (3)
- White
- Males
- Professional/Technical students
- Hispanic males (2)
- White males lag behind other demographic groups
- Difficult to track ALL counseling contacts
- Are part-time students adequately served?

Where or what can we improve in our advising efforts?

- Retention is great
- Former Student Surveys point to some improvements needed
- Student program plans
- Academic transfer options
- Make advising mandatory (3) "required" advising for Academic students has no teeth
 - o There is currently no mechanism to enforce mandatory advising
- Make sure Professional/Technical students know what to do at the start
- Incentivize advising for students: free food? Coffee? Extra printing on campus? This might depend on the student's program of study and their needs (2)
- Increase availability of counselors, particularly during summer (4), faculty too
- Consistency, access to information, more advisors
- Communication
- Engage faculty advisors in the Student Success Center to provide availability for students
- Use of Advisor Data Portal should help in this area
- Increase faculty involvement offer stipends, etc.
- Professional/Technical students are not coming to the 1400 building we need to go to them in Prof/Tech row.
- Need more white male mentors (M&M group) to attract more while males to Student Success Center
- Constant reminders of services (2)
- Emphasis on encouraging white males to utilize services (2)
- Transfer and Professional/Technical (2)
- Assigned counseling to ALL students of attention
- **AVID** promotes retention
- Mandatory advising
 - Can we improve the use of advising/counseling services we currently have? (We have the "car" but are we using it to the fullest?)
 - BYU Provo requires a weekly check-in with advisor if student is receiving scholarships

Outcome B.3. Students persist to attain completions, certificates or degrees

Average Rating: 17.6

18.8

0'''5'''10'''15''''20''''25

Our current IPEDS graduation rate is 30%. Is our graduation rate adequate?

NOTE: discussion raised on changing the word "adequate" to "acceptable"

Yes (4)

- The gap in retention between Hispanic and white males has closed awesome!
- Compared to others, we are doing great in persistence and completion but we are far from where I think we should be in this area

No (11)

- Appears very low (2)
- It seems very low, but apparently adequate compared to others
- Difficult to say

Yes (4)

Can be improved!

No (2) – one person checked both yes and no

In addition to the IPEDS graduation rate, what other measures should we use to gauge our completions success?

- Professional/Technical Certificates of Completion and employment
- National Community College Benchmark Project (NCCBP)
- Student Achievement Initiative points
- Why measure against others? Shoot for the moon!
- Since we have a high population of part-time students, use four-year cohort
- Do we use database matches with other community colleges for transfers?
- Transfer degrees → universities
- Employment (2)
- Number of students who leave prior to meeting benchmarks but still improve skills

Are there any groups of students that are falling behind?

- Professional/Technical students (2)
- Students in pre-college classes

- Students with unclear intent retention suffers; they have no goal, no direction. Need to increase advising for these students
- Hispanic students
 - o It appears that Hispanic students need enhanced engagement efforts (3)
 - Hispanic students will need continued support to overcome barriers (4)
 - Hispanic student retention is great, but we are not getting them to degrees at the same rate as their white counterparts
- Dreamers face financial challenges
- Males, white and Hispanic
- Not falling behind a good goal is to close gaps *between/among* groups (re: Hispanic vs. white student data) (2)
- Low income families

Additional comments:

- Why are there no Aviation Certificates of Achievement and Certificates of Accomplishment?
- Disaggregate the Spring Enrollment Survey data by intent to better understand use of services
- Need a better way to determine who advised students faculty, staff, or administrators?

Outcome C.1. Resource awareness and recruiting activities result in increased enrollment in specified groups

Average Rating: 14.7

16.8

• 15% decrease in enrollment over the past five years

Are there specific programs that need to set new enrollment goals?

- Automotive (4)
- MIST (4) should be in high demand here
- Agriculture (2)
- All programs should have enrollment goals and targets that are revised annually (2)
- Review programs when FTEs dip 10% below the three-year average in specific programs (3)
- Pre-college still needs work
 - As Emporium math moves forward, enrollment in pre-college level math should decrease as students stop taking one pre-college level math multiple times
- Good work on AMT (2)
- Computer Science and Engineering will need advising support to ensure successful enrollment levels (2)
- Commercial Pilot (Helicopter)
- BIM (2)
- Computer Science (3)
- Keep plugging away at Aviation
- ECE
- Business
- Agriculture (2)
- Recruitment/Outreach position vacancy

Are there any groups of students we should focus on for increasing enrollment?

- More outreach in general
- Better use of social media
- High school students in outlying areas (2) and at alternative schools (2)
 - Disappointed we do not draw more students from Moses Lake
 - Keep working at closer ties to the school district
- G.I. Bill should be advertised nationally
 - o Prof/Tech would benefit
 - o How can we directly support returning veterans?
- Unemployment services: WIC, Work Source, DSHS, Community Health
 - Put fliers up in DSHS, Community Health, etc. and advertise programs in English and Spanish

- Professional/Technical outside of service district
- Hispanic enrollment does not reflect service district population; continued efforts in recruitment critical (3)
- Moses Lake High School, Quincy, Othello all have declined
- Work with employers to help employees go to school
- The entire service district
- 1079 students (undocumented) have the money and are willing to come to BBCC to earn their degree (this has been seen at the high school level)
- Middle 50% of high school students
- All high school students
 - "Campus Tour Day" for all high school students?
 - Work with high school guidance counselors to improve recruitment through them
- Examine how to increase enrollment on fringe of service district (2)
- Continue with ESL (English as a Second Language) students natural pipeline
 - Agriculture, etc.

Outcome C.2. Utilization of technology and eLearning lead to student engagement and success

Average Rating: 16.0

18.8

What do you notice about trends in eLearning – enrollment and/or success?

- Need better online strategies and support (2)
 - Students have the belief that online will be easier than on-ground until they are in the class
 - Require students to take a basic class like College Success Skills before taking any on-line class
- More hybrid classes (2)
- Student success appears to be rising or consistent in all divisions except developmental math
- Success rates are not as high as on-ground or web enhanced classes (this trend is common across colleges)
- Success inverted model, Emporium model, ECE distance hybrid...learn from these groups (3)
- Emporium success (3)
- We are good compared to other colleges
- Enrollment offering fewer sections
- Offer more courses such as HUM 214 (Gen Ed requirements)
- BBCC Is <u>average</u> in offering eLearning; could improve enrollments (more classes and sections) and quality (QM Certification)
- If we offer online classes, students take them but do not do well; hybrid numbers are odd you would assume students would do better in these classes
- Business is doing the worst we need to look closely at that area
- Reduced greatly
- Needs organization of a degree path, less successful than face-to-face
- eLearning not yet equal to classroom experience
- Beginning level classes are not as successful better in classroom setting
- More distance learning opportunities
- Better able to serve "modern" non-traditional students
- Must be partnered with face-to-face instruction

Are you aware of other technology utilization that may be impacting student engagement and success?

- Smart devices provide more opportunities for students to have notes, PowerPoint, etc.
 - In Aviation, smart devices = increased engagement = increased success
 - o How can we connect students with these devices? Educational discount through the bookstore? Kickback from vendor?
- Facebook (e.g. PEER advocated used it to engage students; the Bookstore is the expert, their Facebook page is amazing!) (2)
- Academic Early Warning (3)
- BBCC webpage (2) new perspective and youthful energy with accurate content
- **I-Fiber News**
 - o I disagree with I-Fiber News...very small audience (check the viewing numbers)
- AmeriCorps Vista teaches computer literacy in communities
- Flipped model works
- Emporium math 75% success vs. 51% in lecture classes (2)
- We are looking at a statewide effort to acquire a service that will evaluate student readiness for online instruction
- Implement QM in our online courses and explore using Emporium model in other areas
- Self-direction and motivation are still needed
- Away from classrooms social media likely leads to lost focus and distractions
- Mentoring
- What is BBCC's 3-5 year plan for student needs (i.e. eBooks, virtual classrooms, podcast lessons, etc.)
 - In K-12, there are iPads in the classrooms and information is moving through the cloud. Are we keeping up with this?

Outcomes Workbook 2013

Outcomes 2013 Workbook

The 2013 Outcomes workbook provides data to help the college determine progress being made toward goals of the 2009-2014 Academic Master Plan (AMP)*.

As part of BBCC's annual review of the AMP, you are being asked to:

1. Rate each outcome on the worksheets provided (these are separate from the workbook), based on the data reported.

Scale: 0 (not effectively meeting the outcome) to 25 (very effectively meeting the outcome)

- 2. Answer the questions on each outcome worksheet.
- 3. Bring your feedback to the appropriate meeting for discussion:

Division Chairs September 4
Cabinet September 6
Board of Trustees September 12

4. If you cannot attend, please return your feedback to Valerie Kirkwood two days prior to your meeting date and your feedback will be included in the discussion.

New this year... a national benchmarking tool that allows BBCC to compare progress and success with other community colleges across the country – the National Community College Benchmark Project (NCCBP).

In 2012, BBCC participated in the National Community College Benchmark Project (NCCBP). Through an online data-collection and reporting process, NCCBP converts college data into percentile ranks that, on a scale of 100, indicate the percent of a distribution that is equal to or below it. For example, if BBCC ranks at the 85th percentile in an area, it means that 85% of other participating colleges ranked the same or lower. NCCBP defines an institutional strength as a college having reached the 85th percentile rank or higher. This system allows us to compare our performance with other community colleges across the nation.

^{*}For your reference, the AMP can be found in Tab S.

Outcomes Workbook - 2013

Outcome A.1 Use of college resources improves student success

Data shown here and in Tabs A through D provides information related to how use of college resources impacts student success. Please consult these data sets and complete the corresponding Outcome A.1 worksheet, indicating how well the college met the outcome.

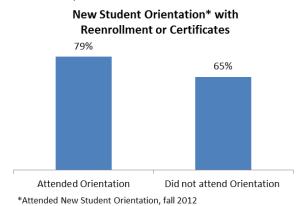

Tab A: New Student Orientation 2012-13
Tab B: Student Success Center 2012-13

Tab C: ASB Event Attendance Demographics 2012-13

Tab D: National Community College Benchmark Project (NCCBP) Summary 2012

Points of interest:

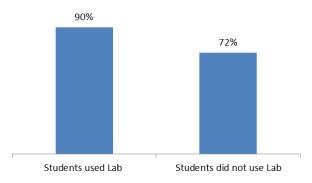

• 79% of students who attended New Student Orientation (NSO) in fall 2012 either reenrolled in spring quarter or received a certificate – 14% higher than students who did not attend NSO (additional information in Tab A).

- New students who used the Student Success Center (SSC) in fall 2012 were 3% more likely to be
 retained to the end of the quarter than students from the same classes who did not use the SSC;
 more research is needed to determine the impact of specific services on student success, the
 impact of use of multiple services by the same student on success, and the impact of repeated
 use of services by the same student on success (additional information in Tab B).
- 89% of students who attended ASB events in fall 2012 were either retained to spring quarter or had received a certificate or degree (additional information in Tab C).

90% of students who used the English Lab in 2012-13 were successful in their English courses –
 18% higher than students who did not use the English Lab.

Student Success* and English Lab Use 2012-13

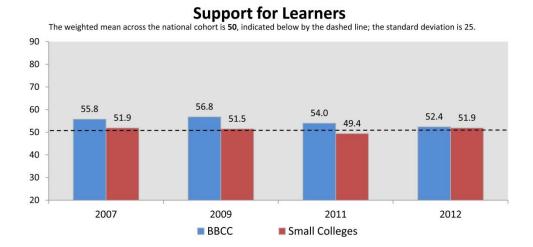

^{*}Students in English classes and received a 2.0 GP or higher

93% of TRiO-SSS (Student Support Services) students were retained from fall to spring (2011-12).
 Students must be first generation, financially disadvantaged, or have a documented physical or learning disability to be eligible for TRiO services.

BBCC's TRiO-SSS Annual Performance Report Information

BBCC TRiO-SSS Program	2007-08	2008-09	2009-10	2010-11	2011-12

Transfer - on to 4 year	9	11	7	1	3
Total - on to 4 year	34	50	51	44	55
Graduate - no transfer	16	19	8	36	30
Transfer - on to 2 year	2	4	2	1	4
Withdrawals	32	19	30	13	9
Retention Rate Fall to Spring	83%	90%	84%	91%	93%

• National research performed at the Center for Community College Student Engagement at the University of Texas at Austin states that students perform better and are more satisfied at colleges that provide important support services, cultivate positive relationships among groups on campus, and demonstrate commitment to their success. The "Support for Learners" benchmark is one of five that is important to students' college experiences and educational outcomes. This benchmark shows how the college performs against itself (over time), against a cohort of other small colleges, and against the national average of 50 (denoted by the dotted line on the chart that follows).

• Responses to specific CCSSE survey items comprise this benchmark; BBCC student response to these items follow.

	How much do	es BBCC empl	hasize each of	the following	(<i>quite a bit</i> or	very much):					
	Providing the support you need to help you succeed at BBCC		Encouraging contact among students from different economic, social, and racial or ethnic backgrounds		Helping you cope with your non-academic responsibilities		Providing the support you need to thrive socially		Providing the financial support you need to afford your education

Data is not weighted by full-time/part-time enrollment status											
Full Time	273	80.5%	185	54.7%	85	25.1%	110	32.6%	211	62.3%	
Part Time	36	72.0%	28	56.0%	15	30.0%	13	26.0%	23	47.9%	

 In 2012, BBCC participated in the National Community College Benchmarking Project (NCCBP). This project allows BBCC to compare our performance with other community colleges across the country. NCCBP defines an institutional strength when a college has an 85th percentile rank or higher. BBCC's "Support for Learners" benchmark ranked at the 89th percentile, making this an institutional strength (272 colleges participated in 2012; additional information in Tab D).

Tab D National Community College Benchmark Project Summary 2012

Big Bend Community College - National Community College Benchmark Project 2012

In 2012, Big Bend Community College participated in the National Community College Benchmark Project (NCCBP). Although BBCC Board, faculty and staff routinely review institutional data, it has been difficult to set the benchmarks or determine what the target should be. This project allows BBCC to compare students' progress and success with other community colleges across the country. Two-hundred-seventy-two colleges participated in the national project.

BBCC student success ranked in the upper percentiles on many measures even though BBCC has a high first-generation population along with low income levels in the area, both characteristics which are associated with lower student success.

Big Bend Community College Highlights

BBCC Student Completion and Transfer has been a measure the college reviews annually. BBCC full-time students ranked at the 91st percentile and part-time students ranked at 95th percentile for students transferring or completing a degree within three years compared to other colleges in the project.

Many students begin their education in Developmental Education courses. BBCC is constantly looking for ways to help students succeed in these courses and transition to college-level coursework. BBCC students' success ranked at the 92nd percentile in Developmental Math and at the 95th percentile in Developmental English. Since the time of the study, the Math Department has implemented the Emporium Model that has improved students' success in Developmental Math. Student success in Core Academic Courses - Composition I and II, Algebra, and Speech - was also ranked in the upper percentiles allowing students to progress through other college courses. The table below illustrates BBCC rankings on several measures. The NCCBP defines a college strength as a rank at or above the 85th percentile nationally. NCCBP defines success as an A, B, or C grade, for Big Bend, that is 4.0 to 1.5 G.P., as defined in the BBCC Catalog 2012-13, page 20.

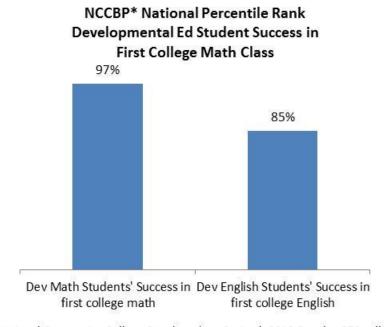

BBCC - Highlights

Benchmark	BBCC Value	% Nat'l Rank	Benchmark	BBCC Value	% Nat'l Rank
Student Completion and Transfer			Core Academic Success (Fall 2010)		
Student Completion and Transfer in 3 years Full-time, first-time	56%	91%	Comp I Enrollee Success Rate	77%	83%
Student Completion or Transfer in 3 years part-time, first-time	41%	95%	Comp II Enrollee Success Rate	82%	98%
Student Satisfaction & Engagement			Algebra Enrollee Success Rate	77%	90%
CCSSE-Academic Challenge	54 score	95%	Speech Enrollee Success Rate	87%	90%
CCSSE-Support for Learners	54 score	89%	Instructional Faculty Load (Fall 2010)		
Developmental Ed Success (Fall 2010)			% Credit Hours by Full-time Faculty	59%	71%
Dev Math Success Rate	70%	92%	% Sections by Full-time Faculty	64%	84%
Dev English Success Rate	87%	100%	Distance Learning Grades (Fall 2010)		
Dev Ed Success, Success in 1st Col Level			% Enrollee Success	73%	89%
Dev Math Stu, Success in 1st college math	86%	97%	% A & B Grades	60%	90%
Dev English Stu, Success in first college English	80%	85%			

In 2012, 272 colleges participated in the project.

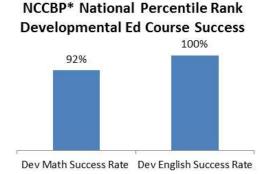

NCCBP Highlights

Developmental Students' Success: BBCC developmental students' success in their first college-level math course was 86% and success in their first college-level English course was 80% (fall 2010). This translates into the national percentile ranks, as shown below.

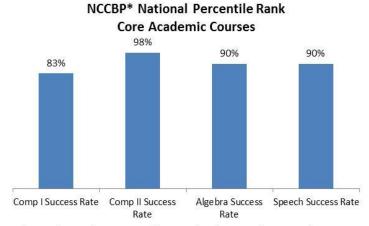

^{*}NCCBP (National Community College Benchmarking Project), 2012 Results, 272 colleges participated. NCCBP defines success as an A, B, or C grade, for Big Bend, that is 4.0 to 1.5 G.P., as defined in the BBCC Catalog 2012-13, page 20.

Developmental Education Course Success: BBCC had a 70% success rate in developmental math courses and an 87% success rate in developmental English courses. This translates into the national percentile ranks, as shown below.

^{*}NCCBP (National Community College Benchmarking Project), 2012 Results, 272 colleges participated. NCCBP defines success as an A, B, or C grade, for Big Bend, that is 4.0 to 1.5 G.P., as defined in the BBCC Catalog 2012-13, page 20.

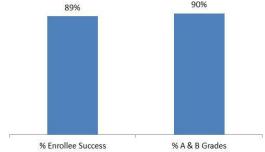

Core Academic Courses: BBCC students' success in core academic courses was 77% in Composition I, 82% in Composition II, 77% in Algebra, and 87% in Speech (fall 2010). This translates into the national percentile ranks, as shown below.

*NCCBP (National Community College Benchmarking Project), 2012 Results, 272 colleges participated. NCCBP defines success as an A, B, or C grade, for Big Bend, that is 4.0 to 1.5 G.P., as defined in the BBCC Catalog 2012-13, page 20.

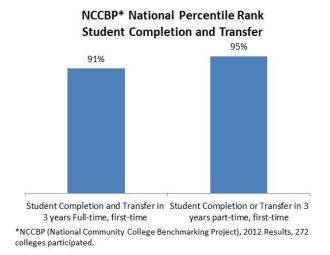

Distance Education Grades: BBCC students' had a 73% success rate and 60% received an "A" or "B" grade in Distance Education courses. This translates into the national percentile ranks, as shown below.

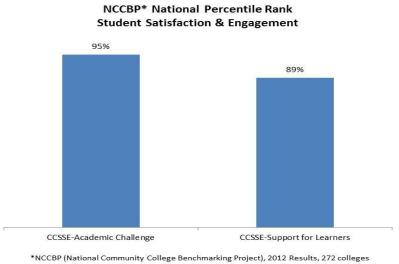

*NCCBP (National Community College Benchmarking Project), 2012 Results, 272 colleges participated. NCCBP defines success as an A, B, or C grade, for Big Bend, that is 4.0 to 1.5 G.P., as defined in the BBCC Catalog 2012-13, page 20.

Student Completion and Transfer: BBCC first-time full-time students had a 56% transfer rate in 3 years and part-time students had a 41% transfer rate. This translates into the national percentile ranks, as shown below.

Student Satisfaction and Engagement: On the CCSSE (Community College Survey of Student Engagement-National Survey) BBCC had a 54 score on academic challenge and 54 score on support for learners. This translates into the national percentile ranks, as shown below. This is helpful to understand how we compare to other colleges.

Ouctome A.2 Increased college contact with potential students leads to increased enrollment

Data shown here and in Tabs E through I provides information related to enrollment from the service district, marketing efforts, and enrollment in various areas and college programs. Information reported under Outcome C.1 is also related to this Outcome. Please consult these data sets and complete the corresponding Outcome A.2 worksheet, indicating how well the college has met the outcome.

Tab E: College-going Rates from Area High Schools 2009-2011

Tab F: Enrollments by Zip Code and High School

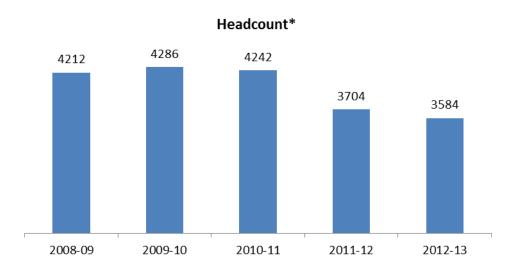

Tab G: Marketing Activity Report 2012

Tab H: Student Characteristics by Intent

Tab I: Student Characteristics by Program

Points of interest:

• Enrollment (headcount) has decreased 15% since 2008-09. However, annualized state and total FTEs (full-time equivalent) have increased slightly during this time, indicating that fewer students are taking more credits (additional FTE information is available in the next section, Outcome A.3).

^{*}All Intents except co-op preschool and continuing education

Tab G Marketing Activity Report 2012

2012 Marketing Activity

BBCC's 2012 marketing efforts changed substantially from the previous two years. To illustrate how marketing has changed for BBCC—until 2010 most people learned about the college from the mailed class schedule, which contained marketing materials as well as class listings. BBCC quit mailing the quarterly class schedule in 2010. BBCC's top marketing tool for most of its history (a mailed class schedule) no longer exists.

Paid advertising decreased in 2012 due to budget reductions affecting all college departments.

The emphasis in 2012 was on increasing news releases and photos produced in-house and sent to local media. The goal is to provide a steady flow of accurate information about the college to local communities, while convincing local media that BBCC is newsworthy to their audiences.

The PIO sent 68 news releases in 2012, compared to 27 sent in 2011 and 35 sent in 2010. The releases are used by print media, radio, television, college web pages, and social media. Each news release is posted on BBCC's web page under Campus News and Events. News releases are modified for posting on BBCC's Facebook page. Releases also are sent to local economic development professionals (at their request) so they can keep track of developments at the college.

The first television news station in BBCC's service district (iFiber One) started operations in the fall of 2012. The iFiber One reporting staff showed an eagerness to deliver news about BBCC, using college press releases in newscasts and social media postings.

New Marketing Initiatives 2012

Search Engine Optimization: BBCC for the first time used a search engine optimization service in 2012. The effort was aimed specifically at increasing enrollment in the Aviation Maintenance Technology program. The cost was covered by the Air Washington grant. During the six-month duration of the project, the BBCC AMT web page moved to the first page of searches on Google and Bing. The process involves purchasing strategic "key words" for web searches, and then making sure those key words appear in the targeted web page. Focus groups with AMT students indicated nearly all of them learned of BBCC AMT through web searches.

Spanish Language Radio

The PIO met several times with Spanish speaking BBCC employees to develop messages for Spanish language radio audiences. The messages ranged from ABE/ESL information to STEM opportunities. The ads were broadcast regularly in November and December. In the past, Spanish language radio ads have been purchased for events specific to the Latino population. These radio ads provided a wider range of information about the college.

i-Fiber One News

The first television station with local news in BBCC's service district started broadcasting in fall of 2012. I-Fiber One news staff is eager for news sent by BBCC, and they consider the college newsworthy.

Presidential Search

BBCC received praise for its web page delivery of the Presidential Search process. The information reached the BBCC family, local communities, and the candidates. It was made possible by teamwork among personnel at Human Resources, IT, and the PIO. Print and radio media directed people to the Presidential Search website.

News releases (marketing content)

News releases and photos are sent by e-mail to all media in the service district. They also are sent to nearby metro media in Spokane, Tri-Cities, and Wenatchee, should those media decide to use the story. The news releases provide content for print, radio, television, and social media. Content can be modified to fit the medium.

Publications of 2012

50-year history of BBCC— 32-page tabloid. Writing and photos by the Public Information Office. Published by the Columbia Basin Herald. Inserted in the CBH and copies distributed to others in the service district.

50th **Anniversary Newsletter—20-page pamphlet**. Writing and photos by the Public Information Office. Printing paid by the BBCC Foundation. Mailed to alumni mailing list and distributed to friends of the college.

BBCC Coin: 1,000 coins commemorating BBCC's 50th anniversary were distributed to friends of the college. Cost of coins paid by BBCC Foundation and PIO Office.

Quick Facts: A small pamphlet with BBCC enrollment and demographic information is updated least twice a year with the assistance of Institutional Research. This is a popular handout used by college employees and Foundation board members.

GED Poster: A poster with tear-off sheets promoting GED/ABE/ESL and distributed at locations throughout the service district by BBCC staff.

Brochures: Brochures are both printed and posted on the web. New brochures were published in 2012 for the following:

- 1. Residence Halls
- 2. Medical Assistant
- 3. Nursing Assistant Certified
- 4. Nursing
- 5. Career Development in Manufacturing (CDM)
- 6. Computer Science
- 7. Industrial Electrical Technology
- 8. Commercial Driver's License
- 9. Business Information Management
- 10. I-BEST
- 11. Early Childhood Education
- 12. Aviation Maintenance Technology
- 13. ABE/ESL
- 14. Students with Disabilities
- 15. TRIO/Upward Bound
- 16. Accounting
- 17. Running Start
- 18. STEPP

Paid Advertising 2012

- 1. CBH: 50th anniversary 2/21/12
- 2. Sports posters for Warden, Othello, Wahluke 3/16/12
- 3. Ad in Moses Lake map by Chamber of Commerce 5/15/12
- 4. Career Fair in Nickel Saver
- 5. Education Page in Nickel Saver
- 6. High School Graduation in Othello Outlook
- 7. Fourth of July Page in Othello Outlook

Outcome A.3 Meet or exceed state FTE target

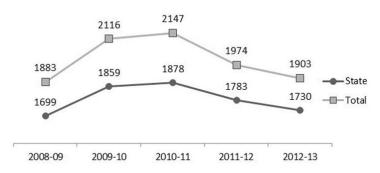

Data shown here and in Tab J provides information related to college FTEs. Please consult these data sets and complete the corresponding Outcome A.3 worksheet, indicating how well the college has met the outcome.

Tab J: FTEs by Program and Division

Points of interest:

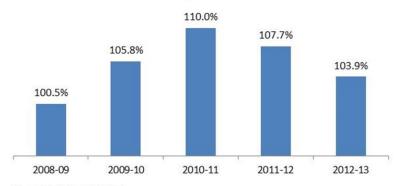

• Although FTEs decreased from last year, they have increased slightly over the past five years and we exceeded our state FTE target in 2012-13 by 3.9%.

Annualized State and Total* FTEs

*Total FTEs incldue those generated by non-program specific classes such as continuing education classes

Percent of Target* State FTE Met

Tab J FTEs by Program and Division

Annualized Total FTEs by Department and Division

Total	204.74	234.52	222.69	209.91	203.07

eBeginning in 2012-13 Early Childhood Education students now take Math in Society (Math& 107) to fulfill the related instruction math

⁸The Parent Education program was eliminated in 2010-11 due to budget cuts.

Overall Total FTE	1864.98	2083.68	2129.77	1979.51	1895.30

^fThe Child and Family Education program was redesigned in 2011-12 to align with statewide articulation transfer agreements and was renamed Early Childhood Education.

Outcome B.1 Students complete courses with a grade of passing or 2.0 grade point or higher

Data shown here and in Tabs K and L provides information related to student success in classes and by division. Please consult these data sets and complete the corresponding Outcome B.1 worksheet, indicating how well the college has met the outcome.

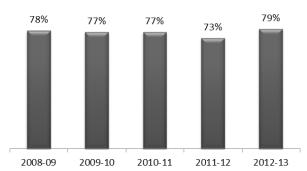

Tab K: Success Rates by Class and Division 2012-13

Tab L: Success in the 30 Highest Enrolled Classes 2010-11, 2011-12, 2012-13

Points of interest:

- BBCC's overall success rate is the highest it has been in the past five years (79%; additional information in Tabs K and L).
- Pre-college math has been steadily improving since 2009-10, increasing nearly 20% since that time.

Overall Success Rates* in All Courses

*Success is defined as earning a "P" (pass) grade or 2.0 or higher

^aAviation success does not include flight-based classes. Students have up to two years to complete flight time; success rates in these classes are not available the time of this report.

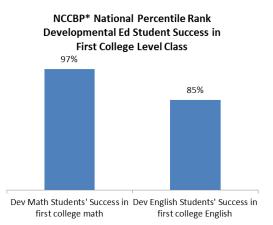

^bPre-college Level Math includes all math classes below 100 level, *except* MPC 080 (MPC 080 is part of the Developmental Division)

- BBCC success in courses ranks highly in the National Community College Benchmark Project (NCCBP; additional information available in Tab D).
 - Only 8% of other participating colleges outperformed BBCC in developmental math course success rates and only 3% outperformed BBCC in developmental math students successfully completing their first college-level math course.
 - BBCC was a top performer in developmental English course success rates; however, 15%
 of other colleges outperformed BBCC in developmental English students' success in their
 first college-level English course.
 - Only 10% or less of other participating colleges outperformed BBCC in Composition II,
 Algebra, and Speech success rates.

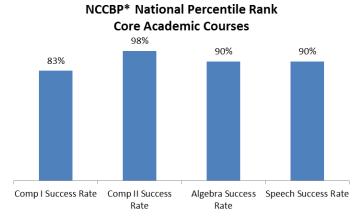

NCCBP* National Percentile Rank Developmental Ed Course Success

*NCCBP (National Community College Benchmarking Project), 2012 Results, 272 colleges participated. NCCBP defines success as an A, B, or C grade, for Big Bend, that is 4.0 to 1.5 G.P., as defined in the BBCC Catalog 2012-13, page 20.

*NCCBP (National Community College Benchmarking Project), 2012 Results, 272 colleges participated. NCCBP defines success as an A, B, or C grade, for Big Bend, that is 4.0 to 1.5 G.P., as defined in the BBCC Catalog **2012-13**, page 20.

*NCCBP (National Community College Benchmarking Project), 2012 Results, 272 colleges participated. NCCBP defines success as an A, B, or C grade, for Big Bend, that is 4.0 to 1.5 G.P., as defined in the BBCC Catalog 2012-13, page 20.

^aEmporium classes

^bAlthough discontinued by the end of the year, some modularized math classes were taught in 2012-13; students received grades in one to five one-credit modules. When a student took a modularized class, he/she received the corresponding number of grades, one for each module.

^a Beginning in 2011-12, modularized math was introduced and students received grades in five one-credit modules. When a student took a modularized class, he/she received five grades, one for

^bIn 2012-13, the Emporium model of instruction was introduced for the pre-college Algebra courses (MPC 094, 096, 098); reflective of this is the reduced enrollment in the traditional lecture-style Intermetiate Algebra (MPC 099) class.

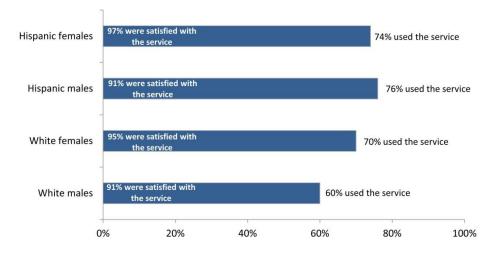

Outcome B.2 Advising and counseling lead to improved student retention and success

Data shown here provides information related to student satisfaction with academic advising efforts at the college and student retention. Additional information on student success rates can be found in the Outcome B.1 section and related tabs. Please consult these data sets and complete the corresponding Outcome B.2 worksheet, indicating how well the college has met the outcome.

Points of interest:

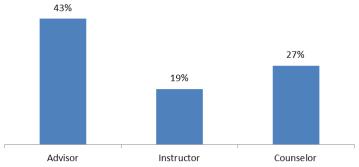

- Results from the 2012 CCSSE survey of (then) current students indicate that Hispanic students use academic advising services more than white students.
 - White males were least likely to use the service (16% less likely than Hispanic males and 10% less likely than white females).
- Although all groups were satisfied with advising services, males were less satisfied than females.

Student use of and satisfaction with academic advising services by ethnicity and sex (CCSSE 2012)

Preliminary results from the 2013 Spring Enrollment Survey indicate that 76% of respondents
 often or sometimes "seek guidance from an instructor/counselor/advisor" and 96% of those
 students are very or somewhat satisfied with the service.

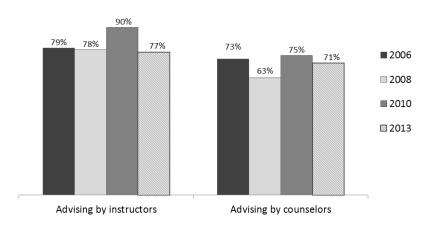

*Preliminary data from 2013 Spring Enrollment Survey

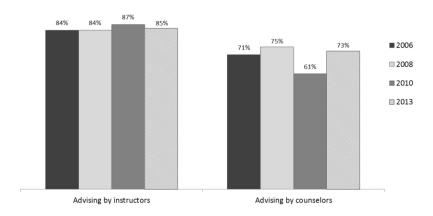

Results from the Former Arts and Sciences Student Survey (2013) suggest improvements to transfer advising. Of students who experienced problems transferring, the most common reason was related to credit hours not being accepted. The second most common reason was "transcript problems." When asked what BBCC could do to improve, students stated that improved transfer advising would benefit future students. (Students who responded to this survey attended BBCC before the fall 2013 implementation of the Advisor Data Portal (ADP), a web-based advising tool which centralizes student data for advising purposes. Future surveys and data analysis will help the college understand the impact this tool has had on advising services for our students.)

Results from the Former Professional/Technical Student Survey (2013) indicate that the
quality of advising by counselors (as rated by former students) dipped in 2010, but improved
in 2013. This service, however, remains the lowest rated by former professional/technical
students.

Excellent to good quality of services in the following areas:

- Retention has increased 13% overall in the past five years. Fall-to-spring retention (of students who completed 15 credits during their first year) was 94% in 2012-13 (the section on Outcome B.3 and Tab O include additional information on retention).
- In winter and spring of 2013, a small group of staff beta-tested the Advisor Data Portal (ADP). The ADP is a web-based advising tool which centralizes student data and allows advisors to access student records on one screen. Advisors can enter notes on the advising sessions directly into the system, allowing continuity of advising session-to-session. Discussions are underway on how best to roll-out and fully implement the system in 2013-14. Faculty training will be provided at the 2013-14 fall in-service.

Outcome B.3 Students persist to attain completions, certificates, or degrees

Data shown here and in Tabs M through O provides information related to student completions and retention. Please consult these data sets and complete the corresponding Outcome B.3 worksheet, indicating how well the college has met the outcome.

Tab M: Completions by Program

Tab N: BBCC Student Achievement Progression Points

0%

2008

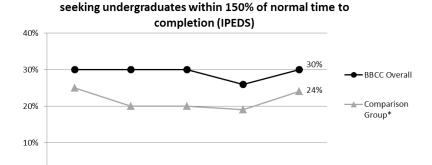

2009

Tab O: Retention

Points of interest:

• BBCC's IPEDS graduation rate (150% of normal time to completion) is up from 26% in 2011 to 30% in 2012 and is 6% higher than the comparison group's graduation rate.

Graduation rates of full-time, first-time degree/certificate

2011

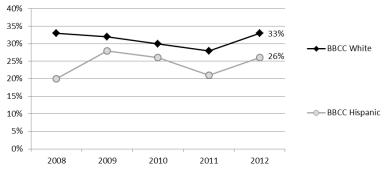

2012

*Using some of BBCC's characteristics, a group of comparison institutions was selected by IPEDS. The characteristics include small, public, 2-year colleges, in the western states, and enrollment of a similar size. The 2012 comparison group includes 28 other institutions.

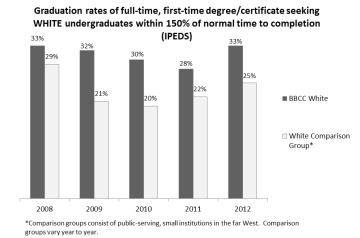

2010

 Although both Hispanic and white students' graduation rates increased from 2011 to 2012 and both groups outperformed their respective national comparison groups, there is still a 7% performance gap between these groups of BBCC students.

Graduation rates of full-time, first-time degree/certificate seeking undergraduates within 150% of normal time to completion, by race/ethnicity (IPEDS)

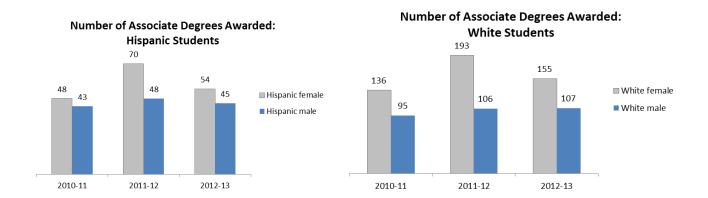

*Comparison groups consist of public-serving, medium institutions in the far West. Comparison groups vary year to year.

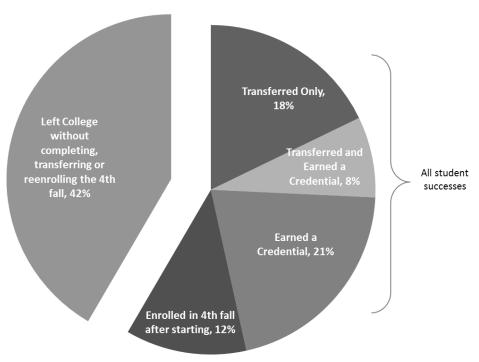

- Overall, Associate Degree completions decreased 18% from last year; however, 2011-12 was a
 peak year for Associate Degree completions, which have only decreased 1% over the past three
 years (additional information in Tab M).
 - Professional-Technical degree completions decreased 19% from 2011-12.
 - o Arts and Sciences degree completions decreased 13% from 2011-12.
- Although Certificates of Achievement and Certificates of Accomplishment completions have decreased 28% from last year, overall they have increased 39% over the past three years (additional information in Tab M).

• 58% of BBCC students earned a credential, transferred, or reenrolled within 150% of normal time to completion (three-year average of students who started in fall 2007, 2008, and 2009 and earned 15 credits in their first year).

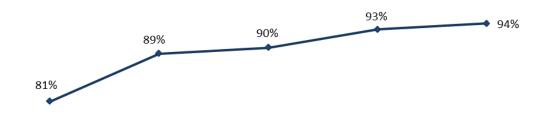

*Three year average, students who started in fall 2007, 2008, and 2009 and earned 15 credits in their first year

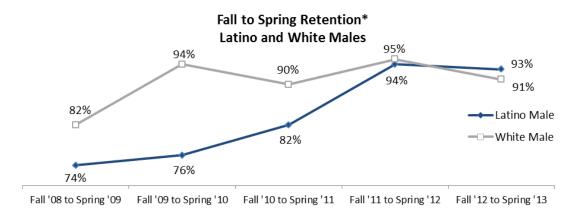

- BBCC's rate of full-time, first-time student completion and transfer (in three years) ranked at the 91st percentile in the NCCBP project in 2012, making this an institutional strength (NCCBP defines an institutional strength when a college has an 85th percentile rank or higher; additional information in Tab D).
- Overall, fall-to-spring retention has increased 13% in the past five years (81% in 2008 to 94% in 2012 (additional information in Tab O).
- The gap in retention among the four groups reported here (Hispanic males, white males, Hispanic females, white females) has closed. Hispanic males' retention has increased 19% over the past five years and white females' retention has increased 13% (additional information in Tab O).

^{*}Includes students who acquired 15 credits in their first year and provided race/ethnicity and sex information

C.1 Resource awareness and recruiting activities result in increased enrollment in specified groups

Data shown here provide information related to recruiting and outreach efforts in 2012-13. Information reported under Outcome A.2 is also related to this outcome. Please consult this information and complete the corresponding Outcome C.1 worksheet, indicating how well the college has met the outcome.

Targeted advertising focuses on programs and areas where enrollment might be decreasing or needs a boost. This type of advertising includes program-specific brochures and/or mailings, search engine optimization services, television and radio ads, and social media postings. The goal of targeted advertising is to increase awareness of and, ultimately, improve enrollments in specific programs. Examples of targeted marketing efforts in 2012 follow.

 News releases are free and used in local media (print, radio, television, BBCC web pages, and social media), providing a steady flow of college information to local communities. In 2012, the number of BBCC press releases more than doubled from 2011. News releases specific to the Aviation Maintenance Technology (AMT) program were part of the targeted advertising campaign in 2012-13.

Number of News Releases 68 27 2010 2011 2012

- Search engine optimization involves purchasing strategic "key words" for web searches and then
 ensuring those key words appear on the targeted web page. Implemented for the first time at
 BBCC in 2012, search engine optimization was aimed specifically at increasing enrollment in the
 AMT program. The project lasted six months and, during that time, the BBCC AMT web page
 link moved to the top of the list of links pulled-up by searches on Google and Bing. Focus groups
 with AMT students indicated nearly all of them learned about the BBCC AMT program through
 web searches.
- In spring 2013, BBCC purchased newspaper ads specifically targeted to the Automotive Technology and Industrial Systems Technology programs, which have declining enrollments (additional information is available in Tab I). These ads will be printed in the Columbia Basin

Herald, Othello Outlook, Grant County Journal, Quincy Post Register, Ritzville Adams County Journal, Grand Coulee Star, and Odessa Record.

Recruiting activities experienced a slow-down in 2012-13 due to employee turnover in the position. The absence of a full-time Coordinator of Student Recruitment and Outreach in 2012-13 could have effected enrollment in some programs.

- The position was vacated in July 2012 and was temporarily filled from September 2012 to March 2013. Unfortunately, the position was vacant during spring quarter – a critical time of year for recruiting local high school graduates into college programs.
- Beginning in July 2013, Rita Ramirez was hired as the full-time Coordinator of Student Recruitment and Outreach. Rita will focus her efforts on providing information to our community about the various educational opportunities that exist at BBCC by developing relationships with local schools, organizations, businesses, and industries. Through these efforts, she hopes to motivate prospective students, encourage enrollment, and increase enrollment in programs that have shown a decline.

C.2 Utilization of technology and eLearning lead to student engagement and success

Data shown here and in Tabs P through R provides information related to student use of eLearning classes and support services and their related impact on student success. Please consult these data sets and complete the corresponding Outcome C.2 worksheet, indicating how well the college has met the outcome.

Tab P: Success Rates by Modality (Online, Hybrid, Web Enhanced, On-ground) 2012-13

Tab Q: Letter Grade Distributions by Modality (Online, Hybrid, Web Enhanced, On-ground) 2012-13

Tab R: Library Use

Points of interest:

• Although the number of eLearning sections has decreased over the past five years, enrollment in these classes has increased over the same time.

2012-13	129	2416	231.14

^{*}distance ed code 3n for online classes

Overall, success rates in online and hybrid classes are not as high as success rates in on-ground
or web enhanced classes. In the majority of divisions, on-ground methodologies result in the
highest rates of success. However, students in the Math/Science division are most successful in
classes that are taught face-to-face with required access to web-based tools (web enhanced)
(additional information in Tabs P and Q).

2012-13 Student Success* by Course Delivery Method and Division

^aEmporium classes

^bAlthough discontinued by the end of the year, some modularized math classes were taught in 2012-13; students received grades in one to five one-credit modules. When a student took a modularized class, he/she received the corresponding number of grades, one for each module.

^d single day class visits, BBCC events (such as orientation), or non-BBCC bookings
^e non-standard use of study rooms for various events, such as interviews for the Job Fair, etc.

Tab S 2009-2014 Academic Master Plan

STUDENT SUCCESS

November 30, 2011 Revision

INTRODUCTION

The Big Bend Community College (BBCC) Academic Master Plan (AMP) 2009-2014, is the Strategic Plan for the college. Not only does it craft a vision of where the college expects to be in five years, but it describes the processes we believe will be useful to hold our focus on the Board of Trustees Ends Statements while continuing to promote student success and retention strategies and be responsive to the developing and changing needs of our district's citizens. The AMP is reviewed annually, updated biennially, and re-written every five years.

Identifying student needs and framing them in terms of outcomes, setting priorities for the use of college resources to achieve the outcomes, and reporting on the results of these efforts to the campus, the district, and the Board of Trustees, is the thrust of this cornerstone-planning document. Additionally, the provision for regular (biennial) and extraordinary (annual) review as provided for in the structure of the AMP establishes procedures for dealing with new issues as they arise.

The Board of Trustees' Ends Statements set and give substance to the college mission, vision statement, and AMP goals and objectives. This most recent Academic Master Plan is a product of continuous planning efforts dating back to 1993, including the Comprehensive Development Plan, BBCC Title III, the 1997-2002 and the 2003-2008 AMP.

The core of our strategic planning as contained in the Academic Master Plan (AMP) is the direction provided by our Board of Trustees via their Ends Statements. Careful review and reflection on our two most recent versions of the AMP identified the obvious central focus of our mission--Student Success. Interested readers will find that we have used this as the genesis of our vision and process for the next five years, still using the Ends Statements as our mission focus.

MISSION

The mission of Big Bend Community College is to serve the educational needs of a diverse population throughout its service district. As a comprehensive two-year community college, the institution works with its partners to provide a variety of educational opportunities, including courses and training for university and college transfer, occupational and technical programs, basic skills and developmental education, community and continuing education, pre-employment and customized training for local business and industry, and support services for students to help promote student access, success and retention.

VISION

The residents of the Big Bend Community College service district will recognize the college as a regional resource to provide learning opportunities that are accessible, professional, innovative, and service-oriented. They will view the college as supporting regional economic development through partnerships with local business and industry that address current and emerging workforce challenges.

BOARD OF TRUSTEES ENDS STATEMENTS

ENDS STATEMENT E-1 MISSION

BBCC is dedicated to our mission as noted above.

ENDS STATEMENT E-2 ACCESS

 BBCC provides quality resources and affordable access to the diverse population of its entire district.

This is manifested through resource sharing with most of the communities of community college district #18, and inclusion of representative numbers of ethnic and economic groups receiving college services and continued support of Basic Skills programs.

ENDS STATEMENT E-3 PARTNERSHIPS

 BBCC works with organizations and agencies to enhance access and service for our district population.

This is seen through active participation by the BBCC Board, staff and students at the local, state, and national and international levels, in planning and implementation of both policy and service.

ENDS STATEMENT E-4 STUDENT ACHIEVEMENT

 BBCC students and clients develop and achieve their goals supported by the staff and resources of the college and its partners.

Accordingly, the college develops and utilizes a comprehensive range of assessment tools and practices, consistent with the college mission.

ENDS STATEMENT E-5 CLIMATE

 BBCC provides and maintains a climate of purpose, respect, and safety for students, staff, and partners.

This means the college will establish, maintain, and review standards of service, safety, and ethical conduct for students and staff. The college efforts in its personnel and student recruitment policies reflect a commitment to cultural inclusiveness.

ENDS STATEMENT E-6 MULTICULTURALISM

 The Board will promote a climate of cultural understanding to be reflected in an approach for both students and college employees that results in an attitude of inquiry and openness. In the workplace and community, this approach sets a standard for customer service and civility in all interactions. In the classroom it leads to understanding of our world and the people in it.

<u>AMP OUTCOME</u>: Big Bend Community College devotes its resources and efforts to student success. Student success is indicated by increased momentum points, student enrollment, student retention, and number of certificates and degrees awarded.

A new direction for the 2009-2014 AMP is to report on the synergy of Ends Statements and the AMP Outcome in three reports that address STUDENT SUCCESS. Previous strategic plans have approached this focus through each Ends Statement Monitoring Report, with an end-of-the-year synthesis of the five individual monitoring reports contained in two documents, the Annual Assessment Report and the Mission Monitoring Report. This new approach for the 2009-2014 AMP envisions three comprehensive reports to the Board of Trustees and community, each reflecting the interrelationships of the Ends Statements. The first report is titled *ACCESS*. Presented to the Board of Trustees each February, it reports and analyzes all college activities focused on informing our community of our resources, and engaging residents/clients in a manner that results in "signing up" (enrolling) for a workshop or class. The series of action plans for the Access Report refer to the relevant Board Ends Statements.

Our students' interest and awareness of the college and its resources is stimulated with activities and goals around the focus of access. The achievement of the AMP Outcome begins with recognition and understanding of college resources and opportunities and an engagement of students with the college, leading to enrollment in workshops, courses, and programs.

FIRST COMPREHENSIVE REPORT – ACCESS – Due Winter Quarter

A. ACCESS - ENROLLMENT

Outcome A.1. An increase in the use of college resources Use of college resources improves student success.

Outcome A.2. An increase in the total number of students/clients enrolled throughout the college district for educational planning and/or instructional activities. College contact with potential students leads to increase in targeted enrollments.

Outcome A.3. An increase student/client revenues and state-funded FTEs. Meet or exceed state FTE target.

Resource awareness is the first activity that leads to enrollment. BBCC will help potential students throughout the district gain an understanding and appreciation for the

resources it can provide to support their educational aspirations. As a result of the following actions, there will be a recorded increase in the use of college facilities such as the library, WEB access, and attendance at college-sponsored events. Surveys and focus group reports will indicate a greater knowledge of the college as well as the source(s) of the college information reported.

1.1 Action Plan: RESOURCE/SERVICE INVENTORY

Ends Statements: E-2 Access, E-6 Multiculturalism

LEAD: Vice President of Instruction & Student Services, Associate Vice President of Student Services, Dean of Arts & Sciences

Representatives of Instruction and Student Services will create a resource/service inventory. Working in conjunction with the Office of Public Information and the Department of Institutional Research and Planning, this group will craft messages regarding the inventory appropriate to specific audiences throughout the district. This collaboration will devise schemes to deliver this information to all parts of the college district, and evaluate the effectiveness of the message and the methods of delivery.

Outcome 1.1.1 Student/client responses on surveys and in focus groups will indicate effective communication about services the college offers to increase access and student success.

1.2 Action Plan: ASSESSMENT OF NEED

Ends Statements: E-2 Access, E-3 Partnerships

LEAD: Dean of Professional/Technical Education, Dean of Education, Health, & Language Skills, Dean of Arts & Sciences, Dean of Institutional Research & Planning

A group from Instruction, in conjunction with the Department of Institutional Research and Planning and the Office of Public Information, will conduct needs surveys. As required, these surveys will be scheduled throughout the year with communities, employers, and employee groups. This information may be collected in a variety of ways including focus groups, on-line surveys, visits to employers, employment data reports, and other sources. The results will be analyzed upon completion, to clearly define identified needs, college resources including staff to meet the needs, and projected costs. A recommendation will then be made to the Vice President of Instruction and Student Services regarding meeting the need, if possible.

Outcome 1.2.1 Assessment of identified needs broken down by community and employer groups.

Outcome 1.2.2 Validate needs expressed in report according to the criteria noted in the action plan.

Outcome 1.2.3 Recommended action plans from the needs assessment will be reported.

1.3 Action Plan: COUNSELING AND ADVISING

Ends Statements: E-2 Access, E-3 Partnerships, E-4 Student Achievement, E-5 Climate

LEAD: Vice President of Instruction & Student Services, Associate Vice President of Student Services

Student Services and Instruction provide counseling and advising services, according to a schedule published district-wide at the beginning of each academic quarter, noting services provided on campus and in other locations. Services to be provided may include skill assessment, academic placement, career exploration, availability of financial aid, job placement, information services such as the BBCC library, the portal, and other on-line services/activities, information regarding student activities, and referrals to other agencies. This group will collaborate with the Department of Institutional Research and Planning to devise tools to monitor the use and effectiveness of these services. The results are to be reported to Cabinet at the end of each academic quarter.

Outcome 1.3.1 On-line surveys and focus groups will indicate awareness of services and satisfaction with services used (library, portal, on-line tutoring, tutoring, etc.).

Outcome 1.3.2 Student Services will report the increase in numbers of students served to assess resource needs allocations.

Outcome 1.3.3 Student Services will set goals for service numbers after the 2008-09 academic year.

1.4 Action Plan: MARKETING PLAN

Ends Statements: E-2 Access, E-4 Student Achievement

LEAD: Associate Vice President of Student Services, Associated Student Body Executive Officer, Coordinated by Director of Public Information

The Director of Public Information will coordinate the actions of staff from Student Services and Instruction in the implementation of the updated BBCC Marketing Plan. Various communication strategies will be used to inform district residents of the resources and opportunities available through the college (see Resource Inventory above). College messages will be crafted and delivered, in audience-appropriate language, using proven effective media including the Web, brochures and other college publications, direct advertising, public service announcements

AMP Final 11-30-11 rev

and reports to the community using print and electronic media. The Director of Public Information will lead a collaboration of instructional, student representatives and student services staff, to build subsidiary marketing plans for Transfer, Professional/Technical, Community Education, and Basic Skills programs under the overall umbrella of the College Marketing Plan.

Outcome 1.4.1 Create a quarterly matrix that tracks marketing efforts such as marketing brochures, press releases, radio spots, public service announcements, web announcements, etc. by topic, language, dates, and locations (Appendix A). Measure the effectiveness of marketing efforts though student questions on registration and new student orientation evaluations.

Outcome 1.4.2 Create and implement a Transfer Marketing Plan assessing the effectiveness of each marketing effort.

Outcome 1.4.3 Create and implement a Professional/Technical Marketing Plan assessing the effectiveness of each marketing effort.

Outcome 1.4.4 Create and implement a Community Education marketing plan, assessing the effectiveness of each marketing effort.

Outcome 1.4.5 Create and implement a Basic Skills marketing plan, assessing the effectiveness of each marketing effort.

1.5 Action Plan - PARTNERSHIPS

Ends Statements: E-2 Access, E-3 Partnerships

LEAD: Vice President of Instruction & Student Services

The college will maintain and utilize current and active advisory and training relationships with all of our partners. The Instruction Division will develop new business and industry partners for Professional/Technical programs either as clients for training or as new members of occupational advisory committees. New training for existing partners will be noted. Instructors and/or Deans will have the responsibility to ensure that all programs with occupational advisory committees will provide to the appropriate dean summary minutes of meetings, highlighting recommendations of each committee, the data used as a basis for the recommendations, and the subsequent action taken by the college.

Instruction will establish an Arts and Science Advisory Committee to address the effectiveness of our academic programs, modeled after the occupational advisory committees. This committee will be established by the start of spring quarter, 2009.

The college has built many important relationships with businesses and agencies throughout the district, across the state and nation, and internationally. These

affiliations are client/resident relationships as well as partnerships. Recognizing the need to leverage limited resources, the college and its partners consult and plan to enhance these resources to provide local and regional training opportunities, based on community and employer needs. . Our business and industry partners play a key role as members of our occupational and skills panels, by keeping our instructional programs relevant and up to date. Partners share or donate equipment, trainers, and training facilities.

Outcome 1.5.1 New business and industry partners will participate in training or serve as new members of occupational advisory committees.

Outcome 1.5.2 New training for existing partners will be noted.

Outcome 1.5.3 Form and utilize an Arts and Science advisory committee. Reports from the committee will show an increase of contacts and relationships with area high schools and colleges.

Outcome 1.5.4 Increase service district transfer students and subsequent transfers to Baccalaureate Institutions.

Outcome 1.5.5 Create a quarterly matrix that shows contacts, the relationship with the partner(s), and topic of discussion. (Appendix B)

Recruitment is another activity that leads to enrollment.

1.6 Action Plan – Recruitment

Ends Statements: E-2 Access, E-3 Partnerships, E-5 Climate

Lead: Associate Vice President of Student Services

The Associate Vice President of Student Services will be assisted by the Public Information Officer to coordinate all activities specifically designed to recruit students throughout the college district. Materials will be prepared for use in all presentations that are based on elements of the college Marketing Plan, expressed and diagnosed community and student/client needs, and current or planned college activities. Individuals and groups representing the college will be knowledgeable about college admissions procedures/personnel, in addition to any other purpose of their presentation. Information collected will be formally shared with the college recruitment team, chaired by the Associate Vice President of Student Services.

Outcome 1.6.1 Create a quarterly matrix showing dates and locations of recruiting activities, the number of contacts made at each activity, and the number of those contacts who enrolled. (Appendix C)

Outcome 1.6.2 Form and utilize a College recruitment team

Outcome 1.6.3 Perform an assessment of recruitment activities, tools, and recommendations.

1.7 Action Plan - COLLEGE SERVICES

Ends Statements: E-4 Student Achievement, E-5 Climate

Lead: Associate Vice President of Student Services, Dean of Information Resources

College services are available to all students, 24-hours a day (where reasonable) and at locations convenient to them. All means of delivering services are considered. Services are monitored to ensure efforts are devoted to the most effective modalities.

Outcome 1.7.1 Student comments on surveys and in focus groups will express satisfaction with student services.

Outcome 1.7.2 Student Services track the number of students served by Financial Aid, Advising, Counseling, on-line tutoring, and information resources; ie. Library, portal, registrations, etc.

1.8 Action Plan - COMMUNICATION

Ends Statements: E-4 Student Achievement, E-5 Climate, E-6 Multiculturalism

Lead: Associate Vice President of Student Services

A renewed focus on customer service centered on an environment involving personal contact between college personnel and the student/client.. For college recruiting purposes, individual student/client contacts are entered into a database.

Outcome 1.8.1 These students/clients receive a prompt response and extended follow up if necessary.

Outcome 1.8.2 Increase the number of contacts with prospective students requiring additional follow-up.

Outcome 1.8.3 On student surveys and in focus groups students express satisfaction with college personnel and student/client contact.

SECOND COMPREHENSIVE REPORT – PROGRAMS – Due Spring Quarter

B. PROGRAMS – ACHIEVEMENT (Retention and progression toward goals)
Outcome B.1. Students complete courses or workshops with a grade of passing or 2.0 GPA or better. Students complete courses with a grade of passing or 2.0 GPA or better.

Outcome B.2. Students establish Educational Plans. Advising and counseling lead to improved student retention and success.

Outcome B.3. Students persist to attain completions, certificates or degrees or workshops and are retained quarter to quarter and year to year to achieve their goals. (Revised 9/8/09 Board of Trustees) Students persist to attain completions, certificates or degrees.

Programs, whether they are collections of support services or instructional activities, are the basis of a student's Educational Plan. This focus area reflects college efforts to provide the resources, including services and instruction, leading to student success. Student goals are achieved with access to, and use of services and instructional programs. College resources are devoted to a high touch student/client interaction that celebrates achievements, diagnoses challenges, recommends options, encourages continuation, and charts learning pathways. Once students/clients are aware of the resources and opportunities at the college and have enrolled in a program, they are at a point where BBCC can help them achieve their goals.

2.1 Action Plan: SERVICE PROGRAMS - PLACEMENT TESTING

Ends Statements: E-2 Access. E-4 Student Achievement

Lead: Associate Vice President of Student Services and Dean of Arts & Sciences

Placement testing is an essential tool for student success, but it should not be a barrier to admission. Staff from Student Services and Instruction will examine current placement testing practices with a view to improving college practice in this area so that all placement tests are available at times and locations convenient to students/clients. The above noted placement testing team will investigate alternative placement testing schemes. (e.g. crosswalk to accept scores from other colleges/universities).

Outcome 2.1.1 Students indicate the placement tests were given at convenient locations and times, were scored in a timely fashion, and did not present a barrier when first enrolling at BBCC.

2.2 Action Plan: SERVICE PROGRAMS - ADVISING/TRAINING

Ends Statements: E-2 Access, E-4 Student Achievement

LEAD: Associate Vice President of Student Services

Timely, accurate advising is a powerful tool to keep students on track with their educational plan. Each student/client brings a unique blend of experiences, achievements, and aptitudes that should be considered to support his/her educational goals. All staff identified as advisors will be provided regular on-going advisor training provided by staff and/or consultants. Such training must include updates on the various services available for students/clients such as childcare,

peer/student mentoring, tutoring, supplemental instruction, information services, financial aid, and job placement services.

Outcome 2.2.1 On student surveys and in student focus groups, students indicate their advisor provided them with accurate information on college support services.

Outcome 2.2.2 On student surveys and in student focus groups, students indicate satisfaction with the advising process at BBCC.

2.3 Action Plan: SERVICE PROGRAMS - ADVISING /AVAILABILITY

Ends Statements: E-2 Access, E-4 Student Achievement

LEAD: Associate Vice President of Student Services

Whenever a staff advisor is available, s/he must have adequate time scheduled for the number of students/clients to be seen. A team from Instruction and Student Services will study the advising process and make recommendations as to the advising load and time allotted per advisee.

Outcome 2.3.1 On student surveys and in student focus groups, students indicate they were able to meet with their advisor at a convenient time and for as much time as needed.

Outcome 2.3.2 Students indicate that they met with their advisors and had ample time to get needed information. Opportunities to meet with advisors.

2.4 Action Plan: SERVICE PROGRAMS - AUDIT and NEEDS

Ends Statements: E-4 Student Achievement, E-5 Climate, E-6 Multiculturalism

LEAD: Vice President of Instruction & Student Services, Vice President of Financial & Administrative Services, Vice President of Human Resources, Associate Vice President of Student Services

Student Services and Financial/Administrative Services Divisions conduct an audit of each area or department. Observations will include student/public contact by each employee, availability of services with respect to times and location, adequacy of staffing, equipment and facilities, student assessment of quality of service, and assessment of need for existing or additional (new) services. Audits of Student Services are to be completed by June 2010. Recommendations for changes will be based on assessments contained in the Audit.

Outcome 2.4.1 Review all service program audits and implement recommended changes, when possible.

2.5 Action Plan: SERVICE PROGRAMS - STAFFING

Ends Statements: E-4 Student Achievement, E-5 Climate

LEAD: Vice President of Instruction & Student Services, Vice President of Financial & Administrative Services, Associate Vice President of Student Services, Dean of Institutional Research & Planning

An annual assessment of individual student service staff workloads including clients served and time expended per client will be completed. The report will describe the ratios of staff to students/clients served, with a goal of recommending staffing ratios based on workload.

Outcome 2.5.1 Analyze the workload and staffing report; will provide recommendations for restructuring the department or additional staff if necessary.

Outcome 2.5.2 Student/client surveys and focus group will indicate satisfaction with services on surveys and in focus groups.

2.6 Action Plan: INSTRUCTIONAL PROGRAMS-AUDIT/ NEEDS ASSESSMENT *Ends Statements: E-2 Access, E-4 Student Achievement, E-6 Multiculturalism*

LEAD: Vice President of Instruction & Student Services, Dean of Professional/Technical Education, Dean of Health Education & Language Skills, Dean of Institutional Research & Planning, Dean of Arts & Sciences, Dean of Information Resources

Assess the effectiveness of all instructional programs and disciplines by June 2013. Assessment will focus on the needs of the program/discipline as expressed by student interest and/or employer interest, the instructional cost per student FTE (annual), equipment and facility suitability and costs of improvement, student enrollment, persistence, and success in the program/discipline/job placement, FTE generation in the program/discipline, availability of qualified faculty, instructor's overload in the program/discipline, and suitability for alternate scheduling or different modalities of instruction. Recommendations for changes will be based on assessment.

Outcome 2.6.1 Review annually completed assessments...

Outcome 2.6.2 Consider recommended changes for implementation based on assessment.

2.7 Action Plan: INSTRUCTIONAL PROGRAMS- STAFFINGEnds Statements: E-2 Access, E-3 Partnerships, E-4 Student Achievement

LEAD: Vice President of Instruction & Student Services, Dean of Professional/Technical Education, Dean of Health Education & Language

Skills, Dean of Institutional Research & Planning, Dean of Information Resources, Dean of Arts & Sciences

When an annual report of program/discipline FTE generation indicates programs or disciplines with growing, stable, low, or declining enrollments, the lack of available part-time faculty and use of full-time faculty for overloads, new faculty positions will be identified and recommended based on an analysis of the report. Position replacements are not assured until the above report has been analyzed, Division Chairs are involved, and the replacements are justified within the context of overall student/college need.

Outcome 2.7.1 Review the annual FTE report for all programs/disciplines.

Outcome 2.7.2 Consider recommended changes for implementation.

THIRD COMPREHENSIVE REPORT – OUTCOMES – Due During Summer

C. OUTCOMES

This is a summary of the data obtained for all of the Board of Trustees Ends Statements and AMP outcomes, with analysis, appraisal, and recommendation.
