

# BIG BEND COMMUNITY COLLEGE

## HEALTHCARE

### PRE-NURSING – TRANSFER (DTA/MRP)

NAME:

HEALTHCARE

This is an example course sequence for students interested in completing pre-requisite courses in order to apply to an undergraduate Bachelor of Science in Nursing (BSN). This advising map also supports planning for enrollment into the Nursing Program at Big Bend and many other community and technical college programs in the state of Washington offering an Associate in Nursing Direct Transfer Agreement/Major Related Program (DTA/MRP).

If this advising map is followed as outlined, you will earn an Associate of Art's and Science – Major Related Program degree in Pre-Nursing with a Direct Transfer Agreement (AA&S DTA/MRP). This means that you will have earned junior standing at the university as it pertains to Breadth Requirements and will have completed the necessary coursework to apply for admission into their respective nursing programs.

It is highly advised that students interested in this degree contact their potential transfer institution(s) early regarding specific course choices. **Please note that this plan DOES NOT represent a contract, ensure course availability or guarantee admission into a nursing program.**

### ENTRY REQUIREMENTS

- Complete Admissions and Placement processes
- Meet with pre-nursing advisor prior to enrolling

Students entering most healthcare professions programs will be required to present documentation of health history and vaccination status, undergo annual tuberculosis screening, submit to a background check, submit to initial and random drug screening, and undergo finger printing prior to licensing with the state of Washington. Students should consult with a healthcare advisor if any of these requirements are a concern.
