COVID Specific Information

Effective Fall Quarter 2022, students attending classes on campus or at college instructional sites or accessing services on campus will not need to prove vaccination status.

All persons, faculty, staff, students, visitors, contractors, etc., regardless of vaccination status, are no longer required to wear an appropriate face covering while occupying indoor spaces on college property.

Furthermore, all students planning to be at any college location, must submit a Daily Health Check Form by clicking here. A link to this form will also appear in Canvas at the course navigation level.

1. What are BBCC’s Return to Campus Plans?

We look forward to providing different learning modalities so that you can be successful in college!

2. Will classes be online, hybrid, or on campus?

In Fall 2021, Big Bend expanded the number of hybrid classes to give students greater access to in-person instruction. Most academic programs were offered hybrid classes and a few were all in-person classes. The college offered some classes entirely online and, for other classes, students will have the option of enrolling in an online or hybrid section of a class. This trend is continuing.

Remember to look carefully at the class schedule to know if the class you want to take is offered hybrid, online, or in-person.
3. How do I tell if my class is taught online, hybrid, or fully in-person?

Click here to view the BBCC online class schedule to see the modality (online, hybrid, in-person) of how the class is taught.

To learn more about how to tell if a class is online or hybrid, here are some tips:

- Look at the class information in the “Days” and Start & End Time” columns.
  - If class Days shows ARRANGED and there are no Start & End Times listed, the class is most likely an online class
  - If specific days and class times are listed, the class is either offered in-person or hybrid.
- Click on the plus sign on the far-left side of table next to the name of the class to open a drop-down menu showing additional information about the class. The information will state if class meeting times are on Zoom and if the class is offered entirely online.

4. When can students access student support services in-person?

Big Bend intends to continue using a hybrid delivery model with expanded in-person support and services balanced with virtual and support services. The college will update the “Campus Resource Schedule” reflecting changes in how supports and services are delivered.

5. Does BBCC have vaccination requirements?

Starting Fall quarter 2022, students will not need to provide proof of vaccination status.

6. What are the face mask requirements at BBCC?

Currently, there are no mask requirements while visiting or taking classes at Big Bend Community College.

7. What are the rules and guidelines around eating and drinking on campus?

Students should feel free to eat and drink on campus provided they do so safely. Please socially distance and minimize the amount of time you are unmasked while indoors.

8. If I think I have COVID-19 or have been in contact with someone who has been diagnosed with COVID-19 do I need to inform the college?

Yes, please click here to learn more. In order to minimize the spread of COVID-19 on our campus, BBCC is asking every one of our employees/students/visitors to help with our prevention efforts while at work, in the classroom or lab, and in campus facilities. Minimizing the spread can be accomplished by getting vaccinated, diligently wearing a face covering properly, washing hands regularly, and staying home when sick.
9. **What are my instructors' responsibilities if I inform them that I have tested positive for COVID-19 or have been in close contact with someone who has been diagnosed with COVID-19?**

BBCC instructors and staff will report the incident and a college staff person will contact you for additional details to make sure you have the support and resources you need from the college.

Why do we do this? The Grant County Health Department requires any person who has tested positive for COVID-19 or any person who has been in close contact with someone who has been diagnosed with COVID-19 to be reported for Institutions of Higher Education, like BBCC. Plus, we want to make sure everyone is safe and adhering to the guidelines required of us.

10. **What measures is the college taking in our campus buildings to ensure a safe learning and working environment?**

We ensure a safe learning and working environment by:

- encouraging all students and employees to receive the vaccine.
- requiring students, employees, and visitors to wear face coverings and maintain 3 feet of distance from other people at all college locations; and
- performing enhanced cleaning and disinfection, especially in communal spaces and high-touch areas.
  - The custodial cleaning program follows the cleaning and disinfection protocols in compliance with guidelines from the Centers for Disease Control and Prevention (CDC) in the prevention in the spread of Coronavirus. The process of daily cleaning of high touch points, such as, door handles, banisters, elevator buttons, public and common area restrooms, and break rooms. In addition, custodial staff have increased the frequency of cleaning and disinfecting activities in classrooms and across campus as an additional preventative measure.
- Placing hand sanitizer dispensers and containers, with at least 60% alcohol concentration, in high traffic areas and locations where soap and hot water are not readily available.

When a person diagnosed with COVID-19 is known to have been on campus, the specific locations, where the person spent time, are evaluated for enhanced cleaning and disinfection, which is in accordance with guidance from the CDC.
